The diagnosis is vitiligo, a skin condition triggered by stress. Creating a large multigenerational cast, Standish knits an absorbing story of loss, identity, and human connections. A rewarding, realistic novel illuminated by magical elements. Booklist starred review. *Wonder* meets *Some Kind of Happiness* in this powerful tween novel from Ali Standish, author of the Carnegie Medal nominee *The Ethan I Was Before* and *August Isle*. While her grandmother was alive, Emma's world was filled with enchantment. But now Gram is gone, and suddenly strange spots are appearing on Emma's skin. Soon she's diagnosed with vitiligo, a condition that makes patches of her skin lose their color, and the magic in her world is suddenly replaced with school bullies and doctor appointments. But when Emma writes one last story in the journal she shared with Gram, something strange happens. Someone writes back to her, just like Gram used to. Who's writing to Emma? And just what is her story going to be now that everything is so different? Award-winning author Ali Standish explores the ways life transforms us and how we learn to let go of what we must while still holding fast to who we are. Seamlessly blending childhood wonder with the slow lessons of maturity, this tale succeeds in celebrating curiosity, thoughtfulness, and collaboration, centering on relatable characters who welcome readers into their world.
