Wealth of Selves Edwina Barvosa, 2008 Many of us have multiple identities says Edwina Barvosa We may view ourselves according to ethnicity marital or family roles political affiliation sexuality or any of several other identities we may use to organize our behavior and self understanding at any given time Various domains have offered nuggets of insight regarding the characteristics and political implications of seeing the self as made up of multiple identities but many questions remain In Wealth of Selves Edwina Barvosa constructs an ambitious interdisciplinary blend of these insights and crafts them into an overarching theoretical framework for understanding multiple identities in terms of intersectionality identity contradiction and the political potential that lies within the practices of self integration Grounded in Gloria Anzaldúa's concept of *mestiza consciousness* as well as in Western political thought this reconsideration of the self promises to reshape our thinking on issues such as immigrant incorporation national identity political participation the socially constructed sources of will and political critique and the longevity of racial and gender conflicts With its accessible style and rich cross pollination among disciplines Wealth of Selves will reward readers in political science philosophy race ethnic and American studies as well as in borderlands sexuality and gender studies

Fragments of Desire Johanna Dehler, 1999 Tracing the influence of Sappho's fragmented literary legacy on three 20th century women writers H D Judy Grahn and Monique Wittig this book discusses Sapphic fiction as a genre that emerged throughout the 20th century H D Grahn and Wittig represent three movements that have shaped the approach to the sexual subject and her desires modernism cultural feminism and poststructuralism respectively H D responds to Sappho with an imagistic style that resembles Sappho's terse and clipped lines Grahn recreates the idea of Lesbos as a model for a women centered society Wittig writing from a poststructuralist background alludes to Sappho in her fierce critique of myth and language This study draws on recent debates about the history of sexuality the body and the construction of the self and is meant as a contribution to the ongoing debate on how gender is constructed in modernist and postmodernist discourse
