Unknown Spirit:

The Communion of the Holy Spirit Watchman Nee, 1994-10-12 This volume is a compilation of messages given by noted Chinese pastor author Watchman Nee at various times and places during his illustrious ministry All relate to the communion of the Holy Spirit Spiritual Communication, &c S. G. W., 1869 *God's Secret* Bobby Sky, 2022-10-14 He takes off his sandals and walks on the abandoned baseball field Walking under the clear night sky he feels the soft sand under his feet He begins to have the thought that has been pondering in his mind all that very day If I draw near to him he will draw near to me he will show up He paces from base to base expecting him to show himself any moment Draw near to him Draw near to him The thought plays over and over like a song stuck in his mind Where is he He wonders Finally he asks out loud with no one visible in sight aEURoewhere are youaEUR Then hears a whisper behind him say aEURoeHere I amaEUR The Lion of Judah waits for youaEUR Will you let him in Tongues of Fire Frank D. Macchia, 2023-03-28 In this volume Frank Macchia offers a systematic theology written with Christ's outpouring of the Holy Spirit from the heavenly Father at Pentecost as its dominant motif Christ's death and resurrection provide for our reconciliation with God and make way for the Spirit for the divine overflowing onto all flesh The church is born in the grace of that overflowing From the abundance of this divine self giving spring forth many different tongues aflame with the church's praise and witness This systematic theology seeks to join and further guide these tongues in their diverse contexts by reflecting in a coherent fashion across the spectrum of Christian doctrine The first three chapters offer an extensive treatment of modern approaches to theology Subsequent chapters explore all of the major topics of importance to theology historically This is theology written from a Pentecostal interest yet seeking to speak beyond it to a larger ecumenical horizon **The Mind of Consciousness** Ray Morose, 2011 *The Mind of Consciousness* The Mind of Consciousness is a book unfolding a new way with new process methods to evaluate your existence It is an experiential work written in textbook format that analytically delineates how and why consciousness and mind interface and function exposing the inter connective dependency of non biological consciousness and the biologically created mind Knowing how that interconnectivity interrelates provides avenues of exploration that reveal the fundamental nature of existence unveiling an innate purpose and direction embedded within consciousness This book works through all the major questions of existence using reproducible and experiential logic allowing everyone to experience the results of that exploration Throughout your life you have two realities at war with one another the primary I am reality formed from non biological consciousness and the secondary I am this or that reality formed by the biological mind You may not be aware of or even appreciate the internal conflict these two inter connective and inter dependent realities create However you experience the resultant turmoil and confusion their subliminal battles establish by not having an experiential appreciation of how those realities are formed function and potentially control your life The text delineates causation for those ongoing internal battles and outlines processes to help overcome the sense of frustration isolation and discord they generate This experiential method

of examination creates empirical processes that afford you the opportunity to make an informed choice rather than a conditioned reaction providing a more secure productive directional and enjoyable life This book takes you into the core of your being turning it inside out exposing who and what you are by revealing a self created shadow world controlling your life without you being aware that control exists
