Savage Grace Jay Griffiths, 2015-03-17 Jay Griffiths is a tour guide for anyone who has ever wished to commune with the side of our human psyche that remains in touch with the wild. Equally at home among the sea gypsy Bajo people who live off the coast of Thailand and forage their food from the ocean floor, drinking the psychedelic ayahuasca plant with Amazonian shamans or joining an Inuit whale hunt at the northern tip of Canada, Griffiths takes readers on an adventure both charted and uncharted. She divides her meditations on these travels into sections named after the ancient elemental properties of the universe: Earth, Air, Fire, Ice, and Water, because her subject matter is not merely the places traveled to but the depths of mind and the cultural narratives revealed by place. It is a universal story told of far-flung groups of humans with vastly different ways of life connected through the varied wilderness that sustains them. By describing the ways in which human societies and the human mind have developed in response to the wilder elements of our homelands, *Savage Grace* reveals itself as a benediction for the emotional, intellectual, and physical nourishment that people continue to draw from the natural world. Under the sway of Griffiths' charisma, her poetic prose, and her deeply learned and persuasive case for the wild roots of our shared human being, we learn that we are all, each and every one of us, a force of nature.

Vital Signs Gregg Levoy, 2014-12-26 Rediscover or discover for the first time the things that make you passionate in life. *Vital Signs* is about what inspires passion and what defeats it: how we lose it and how we get it back. And ultimately, it's about the endless yet endlessly fruitful tug of war between freedom and domestication, the wild in us and the tame, our natural selves and our conditioned selves. Each chapter in *Vital Signs* will contain a core sample, an intimate biography of one of the strategies we employ to gain or regain our passion. The book also affirms the importance of courageous inquiry into dispassion, where we're numb, depressed, stuck, bored, so the reader can recognize and change these tendencies in themselves.

Occupying Island Aide Esu, Simone Maddanu, 2025-10-03 This book offers an analytical perspective of the unfolding militarization in the Italian island of Sardinia, grounded in extensive ethnographic fieldwork and using in-depth documentation analysis. Since the late 1950s, the island, which is the second largest in the Mediterranean, has been one of the main hubs for weapons testing and interforce training for the Italian armed forces and NATO. The book retraces the extent and the significance of military bases in Sardinia and the rise of local collective actions and resistance. This case study offers relevant insights to understand the strategic role of islands in the post-war military space control, more specifically on geo-strategic policy in the Mediterranean and its effects on military-civil relations. The relevance of the militarization of islands sheds a light on opaque institutional decision processes that reinforce the figure of subaltern subjects.
