## **Woman And Modernity:**

*Women's Experience of Modernity, 1875-1945* Ann L. Ardis, Leslie W. Lewis, 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena Analyzing such cultural practices as selling and shopping political and social activism urban field work and rural labor radical discourses on feminine sexuality and literary and artistic experimentation this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century During this period women's experience was a rallying cry for feminists a unifying cause that allowed women to work together to effect social change and make claims for women's rights However it also proved to be a source of great divisiveness among women for claims about its universality quickly unraveled to reveal the classism racism and Eurocentrism of various feminist activities and organizations The essays in this volume examine both literary and non literary writings of Jane Addams Djuna Barnes Toru Dutt Radclyffe Hall H D Pauline Hopkins Emma Dunham Kelley Amy Levy Alice Meynell Bram Stoker Ida B Wells Rebecca West and others Instead of focusing exclusively or even centrally on modernism and literature these essays address a broad array of textual materials from political pamphlets to gynecology textbooks as they investigate women's responses to the rise of commodity capitalism middle class women's entrance into the labor force the welfare state's invasion of the working class home and the intensified eroticization of racial and class differences

**Women, Compulsion, Modernity** Jennifer L. Fleissner, 2004-06-14 Life in America at the turn of the 19th century has been characterised as distinctly male orientated Fleissner disputes this popular view uncovers a new understanding of the era through naturalism the prominent literary style of the time *The Gender of Modernity* Rita Felski, 1995-08-21 In an exploration of the complex relations between women and the modern this work challenges conventional male centred theories of modernity It examines the gendered meanings of such notions as nostalgia consumption feminine writing the popular sublime evolution revolution and perversion

*Gynesis* Alice Jardine, 2019-06-30 Jardine's command of French theory is awesome Even more impressive is the fact that she manages to delve into the subject without ever losing sight of certain impertinent American questions Jane Gallop Department of French and Italian Miami University *Gynesis* from the Greek gyn signifying woman and sis designating process In her book Alice Jardine charts the territories and landscapes of contemporary French thought focusing on such concepts as woman and the feminine and relating them to the problem of modernity Interdisciplinary in her approach she confronts and addresses important psychoanalytic philosophical and fictional texts that are largely the work of male writers In Part One Jardine charts the general boundaries of what she describes as the problematization of woman and in Part Two she explores three major topologies of contemporary French thought the breakdown of the Cartesian Subject the default of Representation and the demise of Man's Truth Part Three analyzes the work of Jacques Lacan Jacques Derrida and Gilles Deleuze three major French

thinkers who according to Jardine are deeply involved in the process of gynesis and discusses their readings of such writers as Marguerite Duras Maurice Blanchot and Michel Tournier A final section turns to the question of comparativism by discussing male American and French writers those self consciously exploring the conceptual territories mapped in Part Two Looking at her texts from the vantage point of an American feminist Jardine voices the hope that feminism and modernity will not become mutually exclusive and by the same token that feminism will not grow less concerned with the question of female stereotyping A brilliant and engaging book that will undoubtedly provoke controversy Gynesis should find a large audience among students of contemporary thought including feminists literary and cultural critics and philosophers

**Woman and Modernity** Bidy Martin,1991 Questions of self representation Salome Ree and Nietzsche Salome as Nietzsche analyst Salome on Ibsen s female characters Femininity modernity and feminism Femininity in Salome s fiction Salome Narcissus and Freud

**Women in the Metropolis** Katharina von Ankum,1997-02-12 A landmark work of German cultural studies The richness of the material is dazzling each of the essays opens up new areas of scholarly inquiry and connects in surprising and illuminating ways with other essays in the volume Maria Tatar author of *Lustmord* These are thought provoking readings of the New Woman s encounters with modernity in Weimar culture Atina Grossmann author of *Reforming Sex*

**Women and Modernity in Weimar Germany** Vibeke Rützou Petersen,2001-06 This book focuses on the popular fiction of Weimar Germany and explores the relationship between women the texts they read and the society in which they lived A complex picture emerges that shows women talking center stage not only in the fiction but also in the reality that shaped its fictional representations One of the author s significant conclusions is that it was the growing strength of female subjectivity its strong positioning and its insistent claim to visibility that occupied the imaginations and fears of Weimar culture and contributed in an important way to the crisis that afflicted the Weimar Republic

**Remaking Women** Lila Abu-Lughod,1998-07-01 Contrary to popular perceptions newly veiled women across the Middle East are just as much products and symbols of modernity as the upper and middle class women who courageously took off the veil almost a century ago To make this point these essays focus on the woman question in the Middle East most particularly in Egypt and Iran especially at the turn of the century when gender became a highly charged nationalist issue tied up in complex ways with the West The last two decades have witnessed an extraordinary burst of energy and richness in Middle East women s studies and the contributors to this volume exemplify the vitality of this new thinking They take up issues of concern to historians and social thinkers working on the postcolonial world The essays challenge the assumptions of other major works on women and feminism in the Middle East by questioning among other things the familiar dichotomy in which women s domesticity is associated with tradition and modernity with their entry into the public sphere Indeed *Remaking Women* is a radical challenge to any easy equation of modernity with progress emancipation and the empowerment of women The contributors are Lila Abu Lughod Marilyn Booth Deniz Kandiyoti Khaled Fahmy Mervat Hatem Afsaneh Najmabadi Omnia Shakry and

Zohreh T Sullivan The book is introduced by the editor with a piece called Feminist Longings and Postcolonial Conditions which masterfully interfaces the critical studies of feminism and modernism with scholarship on South Asia and the Middle East

**The Japanese "new Woman"** Dina Lowy, 2007 In *The Japanese New Woman* Dina Lowy focuses on this new female image as it was revealed, discussed and debated in popular newspapers and magazines in the 1910s as well as on the lives of a specific group of women members of the feminist literary organization known as the Seitoshu

**The Single Woman, Modernity, and Literary Culture** Emma Sterry, 2017-06-22 This book situates the single woman within the evolving landscape of modernity examining how she negotiated rural and urban worlds, explored domestic and bohemian roles and traversed public and private spheres. In the modern era the single woman was both celebrated and derided for refusing to conform to societal expectations regarding femininity and sexuality. The different versions of single women presented in cultural narratives of this period, including the old maid, odd woman, New Woman, spinster, and flapper, were all sexually suspicious. The single woman, however, was really an amorphous figure who defied straightforward categorization. Emma Sterry explores depictions of such single women in transatlantic women's fiction of the 1920s to 1940s. Including a diverse selection of renowned and forgotten writers such as Djuna Barnes, Rosamond Lehmann, Ngaio Marsh, and Eliot Bliss, this book argues that the single woman embodies the tensions between tradition and progress in both middlebrow and modernist literary culture

*New Women, New Novels* Ann L. Ardis, 1990 Ardis identifies the New Woman novel as an important locus of change at the turn of the century, a forum for the review of nineteenth-century narrative conventions, a forum for experimentation with new conceptualizations of sexuality and human character. Back cover

*Women and the Nation's Narrative* Neloufer De Mel, 2001 This book explores the development of nationalism in Sri Lanka during the past century, particularly within the dominant Sinhala Buddhist and militant Tamil movements. Tracing the ways women from diverse backgrounds have engaged with nationalism, Neloufer de Mel argues that gender is crucial to an understanding of nationalism and vice versa. Traversing both the colonial and postcolonial periods in Sri Lanka's history, the author assesses a range of writers, activists, political figures, and movements almost completely unknown in the West. With her rigorous, historically located analyses, de Mel makes a persuasive case for the connections between figures like actress Annie Boteju and art historian and journalist Anil de Silva, poetry written by Jean Arasanayagam, or Tamil revolutionary women and political movements like the LTTE, the JVP, the Mother's Front, and contemporary feminist organizations. Evaluating the colonial period in light of the violence that animates Sri Lanka today, de Mel proposes what Bruce Robbins has termed a lateral cosmopolitanism that will allow coalitions to form and to practice an oppositional politics of peace. In the process, she examines the gendered forms through which the nation and the state both come together and pull apart. The breadth of topics examined here will make this work a valuable resource for South Asianists as well as for scholars in a wide range of fields who choose to consider the ways in which gender inflects their areas of research and teaching
