Womans Reach:

Staging Women and the Soul-Body Dynamic in Early Modern England Dr Sarah E Johnson, 2014-03-28 Though the gender coded soul body dynamic lies at the root of many negative and disempowering depictions of women Sarah Johnson here argues that it also functions as an effective tool for redefining gender expectations Building on past criticism that has concentrated on the debilitating cultural association of women with the body she investigates dramatic uses of the soul body dynamic that challenge the patriarchal subordination of women Focusing on two tragedies two comedies and a small selection of masques from approximately 1592 1614 Johnson develops a case for the importance of drama to scholarly considerations of the soul body dynamic which habitually turn to devotional works sermons and philosophical and religious treatises to elucidate this relationship Johnson structures her discussion around four theatrical relationships each of which is a gendered relationship analogous to the central soul body dynamic puppeteer and puppet tamer and tamed ghost and haunted and observer and spectacle Through its thorough and nuanced readings this study redefines one of the period s most pervasive analogies for conceptualizing women and their relations to men as more complex and shifting than criticism has previously assumed It also opens a new interpretive framework for reading representations of women adding to the ongoing feminist re evaluation of the kinds of power women might actually wield despite the patriarchal strictures of their culture

[Philadelphia's Cultural Landscape](#) Katharine Martinez, Page

Talbott, Elizabeth Johns, 2000 In their day from 1830 to 1930 the Sartain family of Philadelphia were widely admired as printmakers painters art administrators and educators Since then the accomplishments of three generations of Sartains John children Samuel Henry Emily and William and grand daughter Harriet have become obscure This wide ranging collection of essays aims to rectify that situation The patriarch of the family John Sartain came to Philadelphia from London in 1830 seeking success as a mezzotint engraver Mezzotint was a sophisticated means of popularizing the work of well known painters and as an English trained engraver John was in great demand He became influential not just as a pictorial engraver but as a painter publisher and administrator He even designed monuments and furniture And he passed on his skills and learning to his children One of John s daughters and three of his sons went on to become equally celebrated Emily with her friend Mary Cassat become a well known painter and principal of the Philadelphia School of Design for Women precursor of the Moore College of Art and Design As an art educator she spearheaded the women s art movement traveling widely as a speaker and delegate John s sons Samuel and Henry worked with their father as engravers and printmakers and were early photography enthusiasts Son William moved to New York where he became an associate of the National Academy of Design a founder of the Society of American Artists and president of the Art Club of New York Henry s daughter Harriet followed her aunt Emily as head of the School of Design where she advocated broad popular access to art appreciation training The Sartains were important not just for who they were but for who they knew and influenced They were in the vanguard of the movement to democratize art and art education Among their associates were Judd Sartain a successful homeopathic physician who financed her niece Emily s professional training poet and short story writer Edgar Allan Poe painter Thomas Eakins Emily s one time beau and industrialist and art collector Joseph Harrison Jr Lavishly illustrated with 113 duotones and 8 color plates Philadelphia s Cultural Landscape is a fascinating book at a century in which the production and promulgation of art was seen as everybody s business and at a family that epitomized that spirit After Southern Modernism Matthew Guinn, 2011-06-14 The literature of the contemporary South might best be understood for its discontinuity with the literary past At odds with traditions of the Southern Renaissance southern literature of today sharply refutes the Nashville Agrarians and shares few of Faulkner s and Welty s concerns about place community and history This sweeping study of the literary South s new direction focuses on nine well established writers who by breaking away from the firmly ensconced myths have emerged as an iconoclastic generation Harry Crews Dorothy Allison Bobbie Ann Mason Larry Brown Kaye Gibbons Randall Kenan Richard Ford Cormac McCarthy and Barry Hannah Resisting the modernist methods of the past they have established their own postmodern ground beyond the shadow of their predecessors This shift in authorial perspective is a significant indicator of the future of southern writing Crews s seminal role as a ground breaking poor white author Mason s and Crews s portrayals of rural life and Allison s and Brown s frank portrayals of the lower class pose a challenge to traditional depictions of the South The dissenting voices of Gibbons and Kenan who focus on gender race and sexuality create fiction that is at once

identifiably southern and also distinctly subversive Gibbons's iconoclastic stance toward patriarchy like the outsider's critique of community found in Kenan's work proffers a portrait of the South unprecedented in the region's literature Ford McCarthy and Hannah each approach the South's traditional notions of history and community with new irreverence and treat familiar southern topics in a distinctly postmodern manner Whether through Ford's generic consumer landscape the haunted netherworld of McCarthy's southern novels or Hannah's riotous burlesque of the Civil War these authors assail the philosophical and cultural foundations from which the Southern Renaissance arose Challenging the conventional conceptions of the southern canon this is a provocative and innovative contribution to the region's literary study
