A New Model of the Universe P.D. OUSPENSKY,2025-10-04 A New Model of the Universe 1931 is one of the most influential works of Russian philosopher and mystic P D Ouspensky where he combines philosophy science religion and esotericism in an attempt to offer a unified vision of human knowledge The book explores themes such as the perception of time relativity depth psychology mystical traditions religious symbolism and the nature of consciousness Ouspensky seeks to integrate the rational thought of modern science with the timeless truths of philosophy and spirituality showing that mystical experience and scientific knowledge are not opposites but complementary paths to understanding reality Throughout its pages the author proposes that reality is far broader than what ordinary senses can perceive and that human beings have the potential to reach higher states of consciousness through study inner discipline and openness to transcendent knowledge A New Model of the Universe is not merely a theoretical reflection but also a practical invitation to expand the mind and transcend the limits of a purely materialistic worldview This work established Ouspensky as one of the most important voices in twentieth century esoteric thought

Expand Your Consciousness David K. Miller,2015-07-01 Now more than ever humankind is in need of developing its higher consciousness to heal itself and Earth and to experience life in a much more meaningful way By expanding our consciousness we can see the connections and unity that exist in all reality and we might see objects with sharper colors hear sounds with greater clarity or even experience two sensations simultaneously In this book you will explore the fascinating multidimensionality that is yours for the taking You might think that the mind is in the cells but in reality the mind also exists as an energy field located in the aura meaning the mind exists in a realm that in part is in the third dimension but also exists in other dimensions as well The mind is naturally multidimensional Vywamus Chapters Include The Laws of Consciousness The Next Step for Humanity Thought Fields Superintelligence A New Consciousness Quantum Cohesiveness Unified Consciousness and Earth s Noosphere The Intersection of the Dimensions Folding the Space Time Continuum And much much more

Connecting with the Arcturians 3 David K. Miller,2018-12-20 The themes of this book focus on the evolution of humanity the next stage of our planetary development the planetary crisis in general and how we as spiritual lightworkers and starseeds can prepare for our future and for the ascension We look at the relationships between such

complex subjects as quantum physics and spirituality and New Age physics to learn how that relates to the higher dimensions and healing techniques that use new terminology such as quantum healing and omega light The Arcturians gladly integrate physics with spirituality Ascension is the transmutation of the physical body into the fifth dimension completing Earth's incarnational cycles They report that the ascension is open to all seekers of higher spiritual truth especially those who are open to cosmic spirituality There is also an extensive glossary to help the reader Overall their messages are hopeful helpful and healing The healings provided through their thinking are relevant personally and planetarily

Fifth-Dimensional Soul Psychology David K. Miller,2014-08-18 Greetings I m Vywamus I m a soul psychologist In this series of lectures we will explore the meaning of soul psychology and how it relates to modern psychology More importantly we will show how soul psychology as a practice is becoming more popular and is an especially useful technique for starseeds and others who are awakening to the fact that there is reincarnation and that there are soul lessons that must be learned The basic essence of soul psychology rests with the idea that the soul is evolving and that part of this evolution is occurring through incarnations in the third dimension Now to even speak about the soul evolving is perhaps a controversial subject because we know that the soul is eternal We know that the soul has been in existence for infinity and we know that the soul is perfect So why would the soul have to evolve The answer to this question is complex and we may not be able to totally answer it using third dimensional terminology But it is an important question to answer because the nature of soul evolution is inherently connected to your experiences in the third dimension The soul in completing its evolutionary journey needs these experiences in the third dimension and it needs to complete the lessons here through David K Miller Chapters Include Soul Evolution The Nature of the Soul Enlightenment Soul Psychology and Planetary Healing Soul Group Psychology Restoring the Self Uncovering the Mystery of the Mental Body Negative Self Talk Altered States of Consciousness Cosmic Karma

The Mystery of Space Robert T. Browne,1919 Mathematics is the biometer of intellectual evolution Hence the determination of the status quo of the intellect at any time can be accomplished most satisfactorily by applying to it the rigorous measure of the mathematical method The intellect has but one true divining rod and that is mathematics By day and by night it points the way unerringly so long as it leads through materiality but falteringly blindly fatally when that way veers into the territory of vitality and spirituality Wherefore when we have wished to ascertain the real status of the intellect as well as its limitations tendencies possibilities we have turned to its conduct in the field of mathesis where it is least trammled in its ingressive and egressive motivations because of the natural and easy accommodation which is offered for intellectual movement Whether there are signs of moribundity or symptomatic evidences of marked growth or of a termination of intellectual regnancy or whatever may be the occasion for the examination no surer index than the mathematical may be found for the purpose Full logical justification is therefore claimed for the choice of mathematical
