Wild Children:

Wild Children Principal Research Scientist in the Center for New Constructs Richard Roberts, Richard Roberts, 2012-12
Bad children are punished Be bad a child is told and you ll be turned into an animal marked with your crime Five children each tell a different story of what they became One learns that wrong can be right and her curse may be a blessing Another is so Wild he must learn the simplest lesson to love someone else An eight year old girl must face fear and doubt as she dies of old age Love and strangeness hit the lives of two brothers in the form of a beautiful flaming bird Finally the oldest child learns that what is right can be horribly wrong Together they tell a sixth story of a Wild Girl who can t speak for herself and doesn t seem Wild at all

Ecocritical Perspectives on Children's Texts and Cultures Nina Goga, Lykke Guanio-Uluru, Bjørg Oddrun Hallås, Aslaug Nyrnes, 2018-06-11 This volume presents key contributions to the study of ecocriticism in Nordic children s and YA literary and cultural texts in dialogue with international classics It investigates the extent to which texts for children and young adults reflect current environmental concerns The chapters are grouped into five thematic areas Ethics and Aesthetics Landscape Vegetal Animal and Human and together they explore Nordic representations and a Nordic conception or feeling of nature The textual analyses are complemented with the lived experiences of outdoor learning practices in preschools and schools captured through children s own statements The volume highlights the growing influence of posthumanist theory and the continuing traces of anthropocentric concerns within contemporary children s literature and culture and a non dualistic understanding of nature culture interaction is reflected in the conceptual tool of the volume The Nature in Culture Matrix

The Child Savage, 1890-2010 Elisabeth Wesseling, 2016-12-05 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time

Worlds of Sense Constance Classen, 2023-02-28 First published in 1993 *Worlds of Sense* is an exploration of the historical and cultural formation of the senses As the author demonstrates different cultures have strikingly different ways of making sense of the world In the modern urban West we are accustomed to thinking in terms of visual models such as world view whereas the Ongees of the Andaman Islands for example live in a world ordered by smell and the Tzotzil of Mexico hold that temperature is the basic

force of the cosmos In a fascinating examination of the role of the senses in diverse societies and eras Constance Classen shows the extent to which perception is shaped by and expressive of cultural values This book will be of interest to students of cultural studies sociology anthropology and philosophy

Discourses on Nations and Identities Daniel Syrový, 2021-01-18 The third volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes contributions that focus on the interplay between concepts of nation national languages and individual as well as collective identities Because all literary communication happens within different kinds of power structures linguistic economic political it often results in fascinating forms of hybridity In the first of four thematic chapters the papers investigate some of the ways in which discourses can establish modes of thinking or how discourses are in turn controlled by active linguistic interventions whether in the context of the patriarchy war colonialism or political factions The second thematic block is predominantly concerned with hybridity as an aspect of modern cultural identity and the cultural and linguistic dimensions of domestic life and in society at large Closely related a third series of papers focuses on writers and texts analysed from the vantage points of exile and exophony as well as theoretical contributions to issues of terminology and what it means to talk about transcultural phenomena Finally a group of papers sheds light on more overtly violent power structures mechanisms of exclusion Totalitarianism torture and censorship but also resistance to these forms of oppression In addition to these chapters the volume also collects a number of thematically related group sections from the ICLA congress preserving their original context

Deafness, Gesture and Sign Language in the 18th Century French Philosophy Josef Fulka, 2020-04-15 The book represents a historical overview of the way the topic of gesture and sign language has been treated in the 18th century French philosophy The texts treated are grouped into several categories based on the view they present of deafness and gesture While some of those texts obviously view deafness and sign language in negative terms i.e. as deficiency others present deafness essentially as difference i.e. as a set of competences that might provide some insights into how spoken language works One of the arguments of the book is that these two views of deafness and sign language still represent two dominant paradigms present in the current debates on the issue The aim of the book therefore is not only to

provide a historical overview but to trace what might be called a history of the present Savage Girls and Wild Boys Michael Newton,2014-04-22 Savage Girls and Wild Boys is a fascinating history of extraordinary children brought up by animals raised in the wilderness or locked up for long years in solitary confinement Wild or feral children have fascinated us through the centuries and continue to do so today In a haunting and hugely readable study Michael Newton deftly investigates a number of infamous cases He looks at Peter the Wild Boy who gripped the attention of Swift and Defoe and at Victor of Aveyron who roamed wild in the forests of revolutionary France He tells the story of a savage girl lost on the streets of Paris of two children brought up by wolves in the jungles of India and of a Los Angeles girl who emerged from thirteen years locked in a room to international celebrity He describes too a boy brought up among monkeys in Uganda and in Moscow the child found living with a pack of wild dogs Savage Girls and Wild Boys examines the lives of these children and of the adults who rescued them looked after them educated or abused them How can we explain the mixture of disgust and envy that such children can provoke And what can they teach us about our notions of education civilization and man s true nature *A Key to Treehouse Living* Elliot Reed,2019-09-17 For fans of Mark Haddon Tony Earley and Jonathan Safran Foer an epic tale of boyhood from an unforgettable new voice Disorienting weirdly wise indescribably transparent impossibly recognizable Fun too Joy Williams *A Key to Treehouse Living* is the adventure of William Tyce a boy without parents who grows up near a river in the rural Midwest In a glossary style list he imparts his particular wisdom on subjects ranging from ASPHALT PATHS BETTA FISH and MULLET to MORTAL BETRAYAL NIHILISM and REVELATION His improbable quest to create a reference volume specific to his existence takes him on a journey down the river by raft see MYSTICAL VISION see NAVIGATING BIG RIVERS BY NIGHT He seeks to discover how his mother died see ABSENCE and find reasons for his father s disappearance see UNCERTAINTY see VANITY But as he goes about defining his changing world all kinds of extraordinary and wonderful things happen to him Unlocking an earnest clear eyed way of thinking that might change your own *A Key to Treehouse Living* is a story about keeping your own record straight and living life by a different code **Children's Catalog** H.W.
