first shared his now famous Principle of the Hiding Hand In an April 2013 New Yorker issue Malcolm Gladwell wrote an appreciation of the principle described by Cass Sunstein in the book's new foreword as a bit of a trick up history's sleeve It can be summed up as a phenomenon in which people's inability to foresee obstacles leads to actions that succeed because people have far more problem solving ability than they anticipate or appreciate And it is in Development Projects Observed that Hirschman laid the foundation for the core of his most important work Exit Voice and Loyalty and later led to the concept of an exit strategy
