**Biohacking, Bodies and Do-It-Yourself** Mirjam Grewe-Salfeld, 2021-11-05 From self help books and nootropics to self tracking and home health tests to the tinkering with technology and biological particles biohacking brings biology medicine and the material foundation of life into the sphere of do it yourself This trend has the potential to fundamentally change people s relationship with their bodies and biology but it also creates new cultural narratives of responsibility authority and differentiation Covering a broad range of examples this book explores practices and representations of biohacking in popular culture discussing their ambiguous position between empowerment and requirement promise and prescription

**Biohackers Magazine Issue 16** Biohackers , Progress It s a word with meanings of advancement improvement and a clear change towards a goal or objective From the moment humans have inhabited this Earth our whole existence as a species has experienced Progress as well as Decay Civilizations had flourished and progressed for many years and then decayed slowly and rotted over time until there was little to nothing left What is left however are usually things that we following civilizations have studied and learned from The remnants of civilizations are usually the teachings technologies and tools that outlast them History does love to repeat itself and leave the following generations wondering what their marks on the world and human progress will be Going beyond the terminology and historical examples one can ask some more insightful profound questions The first is why is there progress or decay in the first place There is of course no clear answer to this but I suppose it can be best summed up with the phrase First there is time And then there is what you do with it By that I mean that there is a natural order to the way things are and that to accept that there is life given to each and every being also means one s acceptance of this law of progress and de cay We as humans are bound to grow just as we re bound to shrink into old age Although we cannot change this supernatural law of the universe we can in many cases choose how fast we progress or decay We can use our rational human brain towards the consistent progression of ourselves our community and our world We can do this through sustained faith and steady discipline In turn this decreases the decaying rate On the other hand through the coddled comfort of selfishness and endless pity we can do just the opposite and plateau our progress while accelerating our rate of decay One of the main reasons I like Biohacking is because of its communal camaraderie continually focusing on progress In fact many famed biohackers discovered and healed themselves through biohacking after finding themselves in a deathly sick cycle of decay and depression Biohacking when used safely conservatively and respectfully can help us determine what it is that we need to progress in how we can do it as well as how we can measure it and why we should progress and become the best version of ourselves We as individuals families and communities can learn a lot through our experiences with decay and use these dark fragments to build a brighter picture of progress overall And while history may indeed repeat itself as it continually proves we as individuals have the power to choose our rate of progression and decay Choose wisely **Biohackers Magazine Issue 14** Biohackers , What is the most expensive mistake

you've ever made. As humans we are addicted to success and as a paradox this addiction led to neglect our mental health. Our contemporary urban culture makes us suffer and neglect some of the basic psychological nutrients. With advances in technology there is increased volatility, uncertainty, complexity, and ambiguity globally. We are no longer able to predict where the technology will take us. We are caught between peace and prosperity. You have power over your mind, not outside events. Realize this and you will find strength. Marcus Aurelius: This is a simple reminder to remain closely connected with mindfulness. Identify what you can and cannot control and enhance your self-awareness to enlighten your life. It is the best biohack you can use for free.

**Unstoppable** Ben Angel, 2021-01-12

Unlock Your Potential. Become Unstoppable. Unable to overcome debilitating fatigue and depression, bestselling author and personal development expert Ben Angel set out on a 90-day mission to find and conquer the root of his rut. The result of his journey is *Unstoppable*, a highly revealing book where Ben gives you a look into the world of nootropics, wearable devices, and nutrition and delivers a guide to help you reduce stress, increase focus, improve physical performance, and eliminate your fears. You'll hear from world-leading biohackers, neuroscientists, doctors, and New York Times bestselling author Dave Asprey as Ben helps you identify the seven triggers causing your brain fog. Discover the key to better health, more energy, and a better mood. Optimize your mental performance and feel more alert with six nootropics. Form new behaviors and break old patterns: the real secret to your success. Interrupt your stress response through breathing. Align your biochemistry with your soul's purpose in three easy steps. Use progressive overload to become an upgraded version of yourself. Plus, gain access to the *Unstoppable* Assessment to discover your identity type, pinpoint your energy levels, and create a plan to break through your own limits and become unstoppable. When we look at the most successful people, we usually look at their habits, their behaviors, their day-to-day rituals, their dedication. But what about the mind? Ben Angel hits this idea head-on in *Unstoppable*, tackling peak performance with biohacking strategies that will blow your mind. Dr. Ivan Misner, founder of BNI and New York
