Work in Progress Dr. Abbie Maroño, 2024-07-09 In Work in Progress Dr. Abbie Maroño debunks the pervasive myth that shame is the antithesis of empowerment revealing how if understood and embraced it can guide us towards our most authentic selves Popular media often offers individuals empty promises of empowerment urging them to become bulletproof It also portrays shame as the antithesis of empowerment Yet in reality shame signals when one's actions don't align with their ideal self By dismissing this signal they hinder their journey to becoming their best selves True empowerment arises when one cultivates a healthy relationship with shame Work in Progress delves into the science of shame and empowerment equipping people to navigate their feelings of shame and transition into a state of empowerment While many books on empowerment are well intentioned they often overlook or misinterpret the science behind individuals' experiences of shame how they reconcile their self-perception with their surroundings and how they achieve empowerment amidst its elusive definition This work challenges the idea that empowerment is exclusively a feminist concept reserved for women It underscores that empowerment is universal accessible to all no matter who they are
