Workforce shortage in a digital era. Can 100% remote work attract more qualified candidates? Huong Hoang

Thien,2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren t any specific regulations regarding remote work in Germany yet In general remote work provides workers e g more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything s going remotely companies have become an easier target of cyber attacks

**Labor Market Tightness in Advanced Economies** Mr. Romain A Duval,Romain Duval,Yi Ji,Longji Li,Myrto Oikonomou,Carlo Pizzinelli,Mr. Ippei Shibata,Alessandra Sozzi,Marina M. Tavares,2022-03-31 Two years after the onset of the COVID 19 pandemic a puzzle has emerged in several advanced economies unfilled job vacancies have increased sharply even though employment has yet to fully recover This note sheds light on three contributing factors namely barriers to returning to work changing worker preferences away from certain types of jobs and sectoral and occupational job mismatch The note also assesses the impact of labor market tightness on wage growth showing that it has been large for low pay jobs but milder overall Bringing disadvantaged groups of workers into the labor force including by controlling the pandemic itself would ease labor market pressures while amplifying the recovery and making it more inclusive Global Employment Trends for Youth,2010

**Australian Social Trends** ,2008

**New Product Trends in Electronics** John Johnsrud,Michael J. Riezenman,1978

A Profile of Conditions and Trends in Rural Illinois John Gruidl, Norman Walzer, 1990      **Oregon Labor Trends** ,2009  
Alaska Economic Trends ,2015      **Proceedings of the Trends in Electronics Conference** ,1991      **Employment Observatory** ,1991      **Manpower Trends** New York (State). Division of Employment,1952      **Trends in National Development** ,2000      **Green Jobs in the Forest Sector** ,2018 The study Green Jobs in the Forest Sector provides an overview of existing Green Forest Jobs and identifies possible areas for future activities and jobs in the forest sector and may serve as starting point for further analysis and discussion on the future of Green Forest Jobs It offers a framework for classifying Green Forest Jobs under seven thematic work areas outlined in the seven main sections of the study with a particular focus on major trends needs and challenges as well as opportunities and prospects for the forest sector The findings suggest that to promote Green Jobs in the forest sector it is key to i look at forest ecosystem services management as the frame for Green Forest Jobs ii recognize the progress made in the development of Green Forest Jobs and to identify avenues for the future iii enhance the public perception of jobs in the forest sector iv revise existing curricula and develop new ones for catering to the needs of the sector to close the skills gaps and v to facilitate an inclusive transition to green economy through training and support      Hamilton transportation strategy study ,1973      Trends and Applications 1976 IEEE Computer Society.
