Digital Trademarks and Brands Rajeev Sachdev, 2025-10-28 Trademark disputes are a consistent feature of the digital legal landscape appearing in connection with a range of successive technologies and platforms This book presents a new adapted model for digital trademarks and trade practices providing recommendations for the Uniform Domain Name Dispute Resolution Policy UDRP and extending a like process to platform trademark policies and complaint procedures including e commerce marketplace search advertising social media mobile applications and Metaverse platforms The proposed model addresses and greatly reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following use and place of use of marks bad faith and abuse confusion unfair acts trade practices or competition terms policies and disclaimers jurisdiction territory and justification The adapted model is informed by pertinent theories and concepts select aspects of EU and U S and other legal frameworks and existing policies Ultimately a uniform policy is recommended for each of the five platform types in line with an adapted version of the UDRP based on recommendations through the model It is applied in a way that provides a comprehensive workable solution fostering legal certainty Actual text for the proposed adapted UDRP as well as the uniform policies recommended for each type of platform is provided with guidance for implementation The book provides recommendations that can greatly enhance the resolution of trademark disputes of various kinds and on various platforms in a more certain cost effective and timely manner Given that the complex global environment of digital trademarks raises new issues not adequately addressed by legal frameworks this book will be of inestimable value to digital platforms e commerce search advertising social media mobile app Metaverse etc website operators platform and website lawyers various stakeholders in the UDRP arbitrators panellists online dispute resolution providers libraries academics and researchers It will also be useful to digital businesses domain name holders sellers listers advertisers content providers digital consumers trademark holders digital trademark users and others

Public Discourse and the Fashion Industry Natalia Berger, 2026-02-24 This book explores what happens when fashion discourse migrates from specialised media to mainstream newspapers Analysis of 2 263 texts across five Dutch and international case studies animal welfare disability repair practices smart wearables and metaverse fashion demonstrates systematic reversal instead of creating desire it provokes aversion

instead of fostering inclusion it reinforces marginalisation instead of encouraging creativity it stokes speculative investment appetites Drawing on Barthes s semiology of fashion Foucault s discourse theory and Lotman s concept of the semiosphere the book introduces critical discursive matrix analysis as a method for examining fashion at its periphery The findings reveal that when fashion intersects with social issues in mainstream media it becomes colonised by other discursive systems medical civic technology and financial while fashion industry voices retreat replaced by NGOs activists and technology companies pursuing non fashion agendas The volume provides insights into why sustainability efforts fail despite awareness how media representation shapes consumer behaviour and why fashion discourse cannot evolve within its commercial framework Public Discourse and the Fashion Industry will engage a diverse audience including fashion studies scholars discourse analysts media researchers sustainability practitioners policymakers fashion industry strategists and communication specialists
