Spatial Form In Narrative:

Spatial Form in Narrative Jeffrey R. Smitten, Ann Daghistany, Ann Daghistany Ransdell, 1981 *The Idea of Spatial Form* Joseph Frank, 1991 *The Idea of Spatial Form* contains the classic essay that introduced the concept of spatial form into literary discussion in 1945 and has since been accepted as one of the foundations for a theory of modern literature. It is here reprinted along with two later reconsiderations, one of which answers its major critics while the second places the theory in relation to Russian Formalism and French Structuralism. Originally conceived to clarify the formal experiments of avant garde literature, the idea of spatial form when placed in this wider context also contributes importantly to the foundations of a general poetics of the literary text. Also included are related discussions of Andr Malraux, Heinrich W Ifflin, Herbert Read, and E H Gombrich. New material has been added to the essays in the form of footnotes and postscripts to two of them. These either illustrate the continuing relevance of the questions raised or offer Frank's more recent opinions on the topic.

Contemporary British Fiction and the Artistry of Space David James, 2008-11-27 This study examines the importance of space for the way contemporary novelists experiment with style and form, offering an account of how British writers from the past three decades have engaged with landscape description as a catalyst for innovation. David James considers the work of more than fifteen major British novelists to offer a wide-ranging and accessible commentary on the relationship between landscape and narrative design, demonstrating an approach to the geography of contemporary fiction enriched by the practice of aesthetic criticism. Moving between established and emerging novelists, the book reveals that spatial poetics allow us to chart distinctive and surprising affinities between practitioners, showing how writers today compel us to pay close attention to technique when linking the depiction of physical places to new developments in novelistic craft.

Beyond Écriture Féminine Cathy Helen Wardle, 2007 *Beyond Écriture féminine* is the first book to be published exploring the work of the contemporary French author Jeanne Hyvrard. From her early novels of the 1970s up to some of her most recent texts, *Moving* offers critical accounts of Hyvrard beyond a focus upon *écriture féminine*. It identifies the patterns through which her writing repeats and transforms creation mythology, her own oeuvre, and her own life, examining how intertextual repetitions bind her work together into a complex and ever-expanding web of allusions and resonances which engages the reader in a process of constant re-interpretation, challenging notions of linearity and reflecting the chaotic reality of life in the Hyvrardian world. **BOOK JACKET** Spatial Literary Studies in China Ying Fang, Robert T. Tally Jr., 2022-11-14 *Spatial Literary Studies in China* explores the range of vibrant and innovative research being done in China today. Chinese scholars have been exploring spatially oriented literary criticism in two different and mutually reinforcing directions: the first has focused on the study of Western literature, especially U.S. and European texts and theory, and the

second has examined Chinese cultures texts and spaces This collection of essays demonstrates Chinese scholars insightful interpretation evaluation and innovative application of international spatial analyses theories and methodologies as well as their inspiring exploration and reconstruction of distinctively Chinese critical and theoretical discourses For the first time in English the essays in this volume demonstrate the vitality of literary geography geocriticism and the spatial humanities in China in the twenty first century

Dozeman,2009-11-13 In this volume Thomas Dozeman presents a fresh translation of the Hebrew text of Exodus along with a careful interpretation of its central themes literary structure and history of composition He explores two related themes in the formation of the book of Exodus the identity of Yahweh the God of Israel and the authority of Moses the leader of the Israelite people Dozeman clarifies the multiple literary genres within the text identifies only two separate authors in the book s composition and highlights the rich insights that arise from the comparative study of the ancient Near Eastern literary tradition Also treating the influence of Exodus in the history of Jewish and Christian interpretation Dozeman s comprehensive commentary will be welcomed by Old Testament scholars
