*State Fragility and State Building in Africa* Dele Olowu, Paulos Chanie, 2015-10-19 This book describes the contrast between the strong economic growth and democratization that have occurred in Africa and its stalling political progress It presents and discusses fragility as the phenomenon that has caused the state to remain weak and faltering and has led to at least one third of the continent's citizens living in fragile states Following the examination of the drivers of fragility and the impact of fragility on citizens and neighbouring states the book discusses capacity building approaches This part shows how effective states can be built on the African continent a process that would result in a change from state fragility to state resilience It is based on lessons learnt from close studies of the nations where the state has been most developed in the region in Eastern and Southern Africa The book provides and responds to the most recent and up to date information on African development and uses insights of

Borrás Jr., Ian Scoones, Ben White, Wendy Wolford, 2017-08-15 When the 2007 2008 food and financial crises triggered a global wave of land grabbing scholars activists and policy practitioners assumed that this would be met with massive peasant resistance As empirical evidence accumulated however it became clear that political reactions from below to land grabbing were quite varied and complex Violent resistance outright expulsions everyday weapons of the weak and demands for better terms of incorporation into land deals were among the outcomes that emerged Readers of this collection will encounter a multinational group of scholars who use the tools of social movements theory and critical agrarian studies to examine cases from Argentina Mexico Guatemala Nicaragua Colombia Ethiopia Madagascar Mozambique Uganda Mali Ukraine India and Laos as well as the Rio 20 Sustainable Development Conference Initiatives from below in response to land deals have involved local and transnational alliances and the use of legal and extra legal methods and have brought victories and defeats This book was first published as a special issue of *The Journal of Peasant Studies* The Oxford Handbook of the Ethiopian Economy Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country

s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia *Ethiopia's Rural Facilities and Services: Tigray Regional State* ,2011
