Nasong'o,Maurice N. Amutabi,Toyin Falola,2023-01-25 This volume covers Kenya s history society culture economics politics and environment from precolonial times through the first years of independence The book comprises twenty one chapters divided into two parts Part I focuses on the long precolonial moment detailing the nature of precolonial Kenyan societies and their economics politics gender dynamics and social organization Part II examines Kenyan societies encounters with British colonialism critically outlining the impact and implications of these encounters The volume concludes with an examination of political consolidation after the country s attainment of political independence and the subsequent foundations for political authoritarianism **World Military History Bibliography** Barton Hacker,2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical **State Formation in East Africa** ,1984 **Uniting Africa** David J. Francis,2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa s post colonial history Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are emerging and that states that have participated in practical

experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended

East Africa in Transition J. Mbula, 2004 Over the past decade there has been a growing awareness in sub Sahara Africa that institutions of governance are critical to the achievement of sustainable human development These institutions also play a crucial role in the promotion of democracy and partnership building in all areas that are essential to the advancement of developmental goals The International Learning Centre ILC at the University of Nairobi with support from the Great Lakes Colleges Association GLCA and Kalamazoo College brought together leading scholars from the Universities of Dar es Salaam Makerere and several Kenyan institutions These were joined by a group of twenty scholars drawn from the collaborating universities and colleges in the United States of America East Africa in Transition Images Institutions and Identities was the theme of the 2001 Symposium The goal was to challenge the common thinking about countries undergoing transition to re examine the process of change as it occurs in all areas of modern life Several questions have been put forward in the book Chief among these questions is what in a holistic manner informs and moulds the East African identity Is it the shared colonial heritage including the legacy of artificial political borders Is it a product of ethnicity and or home locale Could it be the similarity among the languages within the region Is it the commonality of the struggle of all the peoples of East Africa to take their place in the global village Is identity the product of self actualization or a local response to global pressures

**The Ethiopian Revolution and Its Impact on the Politics of the Horn of Africa**, 1987 **The State and the University Experience in East Africa** Michael Mwenda Kithinji, 2019-11-23 In The State and the University Experience in East Africa Professor Kithinji explores the critical yet unacknowledged role that universities have played in the politics of statehood and nation building He demonstrate how successive colonial and postcolonial governments have sought to use

university education as a means to advance political and economic interests He seeks to unravel the connection between universities and the state in East Africa particularly in Kenya Thorough narrative and analytical history of the policies and politics of university education in the past half century and more explore the forces that have influenced the development of universities This study identifies three major policy trends that have shaped university education Beginning from 1949 when the British colonial government founded Makerere University College in Uganda as the first degree granting institution for East Africa until 2002 when the second President of Kenya Daniel arap Moi retired from office and his Kenya African National Union KANU that had ruled since independence in 1963 lost power By investigating the dynamics that have influenced higher education policies in Kenya and the wider East African region this study links the higher education discourse with the state building narrative and conceives university policies as a product of the forces informing the historical trajectory of Kenya in particular and the wider East African region in general The State and the University Experience in East Africa will be of great interest to scholars of the African continent some of whom may be inspired to rewrite the story of tertiary education and state formation in other parts of Africa by an equally meticulous examination of primary sources as demonstrated in this work

Odell,2020-07-20 Presented through an investigation of Sengoku Japan and Republican China this book proposes an innovative explanation of state formation that focuses on ideational and geographic factors This study addresses the question why are some collapsed states able to reconstitute themselves where others have not Graham F Odell employs two cases of successful state reconstitution Republican China 1912 1949 and Sengoku Japan 1477 1615 to derive a new theoretical framework around this question These cases are distinct across several significant factors making them ideal for a research design that seeks to formulate an original theoretical explanation for a phenomenon Taken together these two periods of Chinese and Japanese history are paradigmatic cases of state collapse and reconstitution and thus intrinsically compelling to the study of state formation By developing a new theory of successful state reconstitution through emphasizing the roles of ideology political symbolism and the geographical distribution of social power this text provides an answer to the question that has not only scholarly and practical implications but also a wide geographical applicability This book will be key reading for scholars interested in matters of international politics political science and state formation especially in East Asia    Politics and Administration in
