

# SAFETY AND SECURITY TIPS FOR TRAVELERS [INFOGRAPHIC]

On Call's Global Security Team shares some essential travel safety and security advice for your travelers to help them prepare for a smoother trip abroad:

## PREPARING FOR TRAVEL: PRE-TRIP

- ✓ To mitigate logistical challenges, proper pre-trip preparation is a must. Before traveling, travelers should:
  - Register with their respective embassies in their destination countries
  - Make copies of all travel documents
  - Leave a copy with a trusted family member or friend at home

## AVOIDING CRIME & SAFETY RISKS

- ✓ Violent crime and kidnapping are rare, but can be more common in certain regions and countries. To mitigate these risks:
  - Vary routes and timing of travel when possible
  - Be discreet when discussing financial/business arrangements in public areas
  - Avoid traveling alone in isolated or poorly lit areas

## UNDERSTANDING FEMALE TRAVELER SAFETY

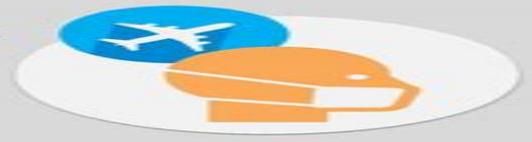

- ✓ Cases of sexual harassment toward females is unfortunately more common than one may think in many destinations around the world. Female travelers should:
  - Stay vigilant in public places and on public transportation
  - Never leave drinks unattended
  - Travel in groups whenever possible

## TRAVELING DURING A PANDEMIC

- ✓ In today's complex travel environment, the medical infrastructure of the destination country should also be considered. Some important questions to ask prior to travel should be:
  - Is the medical infrastructure under stress?
  - If a traveler needs emergency services, COVID or non-COVID related, can they safely receive the care they need locally?

Additionally, travelers should familiarize themselves with COVID-19 precautions/mandates for their destinations, as well as with any travel restrictions that could hinder their ability to enter their destinations and/or return home.

## AVOIDING UNFORESEEN MEDICAL EXPENSES

- ✓ Depending on the destination, travelers could be expected to cover the cost of medical services. Some facilities may even require travelers to pay for services upfront prior to being treated.
 

Therefore, organizations should ensure all travelers have medical evacuation and assistance resources at their disposal in the event a traveler gets sick or injured while abroad.

## PLANNING FOR SEVERE WEATHER EVENTS

- ✓ Travelers should plan for probable weather and natural disaster events that could occur in their destination. For example, Atlantic hurricane season in the US is from June through November.
 

Infrastructure in foreign countries vary and can be greatly impacted by hurricanes and earthquakes.

Communication during these events can also be sporadic and unreliable. It is important to have a plan in place in the event a severe weather event occurs.

Effective safety and security planning is an important element of any effective travel risk management and duty of care strategy. For more information, feel free to contact us today:
