Temas Colombinos:

Temas colombinos Juan Gil, Consuelo Varela, 1986 Reading Columbus Margarita Zamora, 2023-04-28 Christopher Columbus authored over a hundred documents many of them letters giving testimony on the Discovery to Isabela and Ferdinand In this first book in English to focus specifically on these writings Margarita Zamora offers an original analysis of their textual problems and ideological implications Her comprehensive study takes into account the newly discovered Libro Copiador which includes previously unknown letters from Columbus to the Crown Zamora examines those aspects of the texts that have caused the most anxiety and disagreement among scholars questions concerning Columbus s destination the authenticity and authority of the texts attributed to him Las Casas s editorial role and Columbus s views on the Indians In doing so she opens up the vast cultural context of the Discovery Exploring the ways in which the first images of America as seen through European eyes both represented and helped shape the Discovery she maps the inception and growth of a discourse that was to dominate the colonizing of the New World This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 Christopher Columbus authored over a hundred documents many of them letters giving testimony on the Discovery to Isabela and Ferdinand In this first book in English to focus specifically on these writings Margarita Zamora offers an original analysis of *El Repertorio colombiano*, 1878 *Ellen Whishaw: una británica americanista su defensa de los lugares colombinos en la España de comienzos del siglo XX* Nieves VERDUGO ÁLVEZ, 2018-07-04 **Relaciones artísticas entre España y América** Consejo Superior de Investigaciones Científicas (Spain), 1990 **Temas colombianos: La metamorfosis del "chino de la calle."** Luis María Beltrán Cortés, 1970 **The Worlds of Christopher Columbus** William D. Phillips, Carla Rahn Phillips, 1992 When Columbus was born in the mid fifteenth century Europe was largely isolated from the rest of the Old World Africa and Asia and ignorant of the existence of the world of the Western Hemisphere The voyages of Christopher Columbus opened a period of European exploration and empire building that breached the boundaries of those isolated worlds and changed the course of human history This book describes the life and times of Christopher Columbus on the 500th anniversary of his first voyage across the Atlantic Ocean in 1492 Since ancient times Europeans had dreamed of discovering new routes to the untold riches of Asia and the Far East what set Columbus apart from these explorers was his single minded dedication to finding official support to make that dream a reality More than a simple description of the man this new book places Columbus in a very broad context of European and world history Columbus s story is not just the story of one man s rise and fall Seen in its broader context his life becomes a prism reflecting the broad range of human experience for the past five hundred years Respected historians of medieval Spain and early America the authors examine Columbus s quest for funds

first in Portugal and then in Spain where he finally won royal backing for his scheme Through his successful voyage in 1492 and three subsequent journeys to the new world Columbus reached the pinnacle of fame and wealth and yet he eventually lost royal support through his own failings William and Carla Rahn Phillips discuss the reasons for this fall and describe the empire created by the Spaniards in the lands across the ocean even though neither they nor anyone else in Europe know precisely where or what those lands were In examining the birth of a new world this book reveals much about the times that produced these intrepid explorers
