Ethnicity, Propaganda, Myth-making Tibor Frank, 1999

Tramps & Trade Union Travelers Kim Moody, 2019-08-13 From the author of *On New Terrain* a historical examination of why American workers never organized in early industrial America and what it means today Why has there been no viable independent labor party in the United States Many people assert American exceptionalist arguments which state a lack of class consciousness and union tradition among American workers is to blame While the racial ethnic and gender divisions within the American working class have created organizational challenges for the working class Moody uses archival

research to argue that despite their divisions workers of all ethnic and racial groups in the Gilded Age often displayed high levels of class consciousness and political radicalism In place of American exceptionalism Moody contends that high levels of internal migration during the late 1800s created instability in the union and political organizations of workers Because of the tumultuous conditions brought on by the uneven industrialization of early American capitalism millions of workers became migrants moving from state to state and city to city The organizational weakness that resulted undermined efforts by American workers to build independent labor based parties in the 1880s and 1890s Using detailed research and primary sources Moody traces how it was that pure and simple unionism would triumph by the end of the century despite the existence of a significant socialist minority in organized labor at that time Terrific An entirely original take on why American labor was virtually unique in failing to build its own political party But there s much more in investigating labor migration and the tramp phenomenon in the Gilded Age he discovers fascinating parallels with today s struggles of immigrant workers Mike Davis author of Prisoners of the American Dream **Immigrants and Their Children in the United States** Arthur William Hogg, 1986 **Gale Encyclopedia of U.S. Economic History**, 1999 Designed to answer such key questions as How has the U S Constitution shaped the economy of the United States What were the consequences of Prohibition on consumers behavior This title presents 1 000 entries era overviews event movement profiles biographies business industry profiled geographic profiles and more *Research Guide to American Historical Biography* Suzanne Niemeyer, 1988 Description and evaluation of the most important secondary and primary sources for 452 American historical figures in all five volumes T p verso v 5
