intellectual gloom over our apostate world After a period of Six thousand years has been spent in anxious inquiries after the path to true knowledge and happiness Ignorance Superstition Idolatry Vice and Misery still continue to sway their sceptre over the great majority of the human race and if we be allowed to reason from the past to the future we may rest assured that while mankind are destitute of a Guide superior to the glimmerings of depraved reason they would be no nearer the object of their pursuit after the lapse of sixty thousand years than at the present moment It is only in connection with the discoveries of Revelation that we can expect that the efforts of human reason and activity will be successful in abolishing the reign of Ignorance and degrading Superstition illuminating the benighted tribes of the Pagan World and in causing Righteousness and Order and Peace to spring forth before all the nations Though the Christian Religion has never yet been fully understood and recognised in all its aspects and bearings nor its requirements been cordially complied with by the great body of those who profess to believe in its Divine origin yet it is only in these nations who have acknowledged its authority and in some measure submitted to its dictates that any thing approximating to just conceptions of the Supreme Intelligence and of his moral government is found to prevail About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
