The Color Of Culture:

Color and Culture John Gage, 2025-01-28 A groundbreaking award winning analysis of color in Western culture from the ancient Greeks to the late twentieth century by one of the most foremost authors on the subject What does the language of color tell us Where does one color begin and another end Is it a radiant visual stimulus an intangible function of light or a material substance to be molded and arrayed Color is fundamental to art yet so diverse that it has hardly ever been studied in a comprehensive way Art historian John Gage considers every conceivable aspect of the subject in this groundbreaking analysis of color in Western culture from the ancient Greeks to the late twentieth century Gage describes the first theories of color articulated by Greek philosophers and subsequent attempts by the Romans and their Renaissance disciples to organize it systematically or endow it with symbolic power He unfolds its religious significance and its use in heraldry as well as how Renaissance artists approached color with the help of alchemists He explores the analysis of the spectrum undertaken by Isaac Newton and continued in the nineteenth century by artists such as Georges Seurat traces the influence of Johann Wolfgang von Goethe s color theory and considers the extraordinary theories and practices that attempted to unite color and music or make color into an entirely abstract language of its own A seminal undertaking to suggest answers to many perennial questions about the role of color in Western art and thought Color and Culture throws fresh light on the hidden meanings of many familiar masterpieces

been created traded used and interpreted over the last 5000 years The themes covered in each volume are color philosophy and science color technology and trade power and identity religion and ritual body and clothing language and psychology literature and the performing arts art architecture and interiors and artefacts David Wharton is Associate Professor of Classical Studies at the University of North Carolina at Greensboro USA Volume 1 in the Cultural History of Color set General Editors Carole P Biggam and Kirsten Wolf
