**Your United States** Arnold Bennett,1912 *The High School* ,1928 Popular Educator ,1903 *Invented Cities* Mona Domosh,1996-01-01 Why do cities look the way they do In this intriguing new book Mona Domosh seeks to answer this question by comparing the strikingly different landscapes of two great American cities Boston and New York Although these two cities appeared to be quite similar through the eighteenth century distinctive characteristics emerged as social and

economic differences developed Domosh explores the physical differences between Boston and New York comparing building patterns and architectural styles to show how a society's vision creates its own distinctive urban form Cities Domosh contends are visible representations of individual and group beliefs values tensions and fears Using an interdisciplinary approach that encompasses economics politics architecture historical and cultural geography and urban studies Domosh shows how the middle and upper classes of Boston and New York the building elite inscribed their visions of social order and social life on four landscape features during the latter half of the nineteenth century New York's retail district and its commercial skyscrapers and Boston's Back Bay and its Common and park system New York's self expression translated into unlimited commercial and residential expansion conspicuous consumption and architecture designed to display wealth and prestige openly Boston in contrast focused more on culture The urban gentry limited skyscraper construction prevented commercial development of Boston Common and maintained homes and parks near the business district Many fascinating lithographs illustrate the two cities contrasting visions *30 Stories to Remember* Thomas Bertram Costain, John Beecroft, 1962

**Solo for Piano by John Cage, Second Realization, Part 1** David Tudor, 2020-01-01 When I think of music I think of you and vice versa John Cage told David Tudor in the summer of 1951 Looking back years later Cage said that every work he composed in the ensuing two decades was composed for Tudor even if it was not written for the piano Tudor's nominal instrument The collaboration of Cage and Tudor reached an apex in the Solo for Piano from Cage's Concert for Piano and Orchestra 1957-58 None of Cage's previous works had employed more than a single type of notation In contrast the Solo for Piano consists of eighty-four notational types ranging from standard line and staff notation to extravagant musical graphics The notational complexity of the Solo for Piano led Tudor to write out or realize a performance score from which he played at the premiere of the Concert for Piano and Orchestra in May 1958 The next spring when Cage requested music to complement his ninety-minute lecture Indeterminacy Tudor created a second realization for which he devised a new temporal structure to implement Cage's notations This edition of Tudor's second realization of the Solo for Piano presents Tudor's performance score in the spatial-temporal layout of its proportional notation An introductory essay discusses the early collaborations of Cage and Tudor as well as the genesis creative process and performance history of the Solo for Piano The critical commentary examines each of Tudor's methods of realization which notations from Cage's score Tudor selected and why how Tudor interpreted Cage's often ambiguous performance instructions how Tudor distributed the resulting sounds temporally and the ways in which Tudor's realization fulfills transcends and sometimes contravenes the instructions of Cage's score *Scribner's Magazine ...*, 1897

**Reading and Literature** Melvin Everett Haggerty, 1927 Selections from English and American literature are accompanied by explanatory notes and study questions **John Cage's Theatre Pieces** William Fetterman, 2012-10-12 The experimental composer John Cage 1912-1992 is best known for his works in percussion prepared piano and electronic music but he is also acknowledged to be one of the most significant figures in

20th century theatre In Cage s work in theatre composition there is a blurring of the distinctions between music dance literature art and everyday life Here William Fetterman examines the majority of those compositions by Cage which are audial as well as visual in content beginning with his first work in this genre in 1952 and continuing through 1992 Much of the information in this study comes from previously undocumented material discovered among the unpublished scores and notes of Cage and his frequent collaborator David Tudor as well as author s interviews with Cage and with individuals closely associated with his work including David Tudor Merce Cunningham Bonnie Bird Mary Caroline Richards and Ellsworth Snyder *Scribner's Magazine* Edward Livermore Burlingame, Robert Bridges, Alfred Sheppard Dashiell, Harlan Logan, 1918
