

Mental Health Checkup & Toolkit

Taking care of your mental health is just as important as taking care of your physical health. These exercises can help you cope with emotions like worry, stress, or feeling upset, and help with situations that you feel you can't do much about. Give these exercises a try — they might help you feel better!

Distraction Tool

Doing distracting or fun activities focuses your attention in a helpful way — it gives you something else to think about instead of what is bothering you. Try playing a game, listening to music, spending time with a pet, talking to family/friends, or doing a craft.

Relaxation Tool

Slowing your body down calms your brain and relaxes your body. Try taking five slow deep breaths, tightening and releasing your muscles, or imagining being somewhere peaceful, like the beach or walking in the woods.

Action Tool

Keeping a good schedule and doing your everyday activities helps you stay on track and be healthy in your body and your mind. Try sleeping on a regular schedule, drinking plenty of fluids, eating nutritious meals, and exercising every day!

meals, and exercising every day!

Instructions

1. Pause and take a moment to check up on yourself. How do you feel?
2. Consider each tool. Start with the Distraction Tool and follow the arrows.
3. Which tool do you think will help you feel better right now? (On a different day, it might be a different tool.)
4. Now give it a try!

Thinking Tool

Noticing the realistic and positive parts of a situation increases optimistic thinking, which can help you change how you feel. Try asking yourself, "What are the good things that could happen?" or "These thoughts aren't helping me — how can I see this differently?"

Toolkit Mental Health

Linda Hill (Life coach)

Toolkit Mental Health:

The Mental Health Toolkit (4 Books In 1) Linda Hill,2022-11 Do you feel caught up in the emotional whirlwind of your thoughts and feelings Having trouble managing symptoms of C PTSD Or are you having trouble overcoming addiction and want to prevent any relapse Or maybe your problem involves overthinking If you say yes to one of these questions then this book is just for you This is a 4 book set that helps you and guides you to improve your mental health This book includes the following Workbooks and Guides for CBT DBT Skills Complex PTSD Addiction Anxiety Recovery **Mental Health Toolkit** ,2020 *Mental Health for All Toolkit* Henry G. Brzycki,Elaine J. Brzycki,2018-04-04 The Mental Health for All Toolkit MHT provides front line educators students and parents with a new student well being model based on the latest research in positive psychology the psychology of well being and student centered learning The Mental Health for All Toolkit for teachers counselors administrators students and parents consisting of three 3 researched based high impact practices Integrated Self iSelf model Student Success Predictor and Self across the Curriculum Drawing upon our over 30 years of counseling teaching and research we have found that school aged children with psychological well being have a lower risk of mental health disorders and physical health diagnosis and behaviors such as violence anxiety depression obesity cutting substance abuse and bullying among others As such psychological well being is an important protective factor to impart in a child s life in preparation for college and careers and for a positive life Further research demonstrates that young people can be taught psychological well being by integrating it into the school experience **The Primary Care Toolkit** Larry James,William O'Donohue,2008-12-16 Integrated care is receiving a lot of attention from clinicians administrators policy makers and researchers Given the current healthcare crises in the United States where costs quality and access to care are of particular concern many are looking for new and better ways of delivering behavioral health services Integrating behavioral health into primary care medical settings has been shown to 1 produce healthier patients 2 produce medical savings 3 produce higher patient satisfaction 4 leverage the primary care physician s time so that they can be more productive and 5 increase physician satisfaction For these reasons this is an emerging paradigm with a lot of interest and momentum For example the President s New Freedom Commission on Mental Health has recently endorsed redesigning the mental health system so that much of this is integrated into primary care medicine **Clinical Handbook of Co-existing Mental Health and Drug and Alcohol Problems** Amanda Baker,Richard Velleman,2007-03-12 Co existing mental health and drug and alcohol problems occur frequently in primary care and clinical settings Despite this health professionals rarely receive training in how to detect assess and formulate interventions for co existing problems and few clinical guidelines exist This Handbook provides an exciting and highly useful addition to this area Leading clinicians from the UK the US and Australia provide practical descriptions of assessments and interventions for co existing problems These will enable professionals working with co existing problems to understand best practice and ensure that people with co existing

problems receive optimal treatment A range of overarching approaches are covered including working within a cognitive behavioural framework provision of consultation liaison services training and supervision individual group and family interventions and working with rurally isolated populations The contributors also provide detailed descriptions of assessments and treatments for a range of disorders when accompanied by drug and alcohol problems including anxiety depression schizophrenia bipolar disorder and learning difficulties The Clinical Handbook of Co existing Mental Health and Drug and Alcohol Problems will enhance clinicians confidence in working with people with co existing problems It will prove a valuable resource for all psychologists psychiatrists counsellors social workers and all those working in both primary and secondary care health settings

The Primary Care Toolkit Larry James,William O'Donohue,2008-11-01 Integrated care is receiving a lot of attention from clinicians administrators policy makers and researchers Given the current healthcare crises in the United States where costs quality and access to care are of particular concern many are looking for new and better ways of delivering behavioral health services Integrating behavioral health into primary care medical settings has been shown to 1 produce healthier patients 2 produce medical savings 3 produce higher patient satisfaction 4 leverage the primary care physician s time so that they can be more productive and 5 increase physician satisfaction For these reasons this is an emerging paradigm with a lot of interest and momentum For example the President s New Freedom Commission on Mental Health has recently endorsed redesigning the mental health system so that much of this is integrated into primary care medicine
