Indian-made Erika Marie Bsumek,2008 In works of silver and wool the Navajos have established a unique brand of
American craft And when their artisans were integrated into the American economy during the late nineteenth century they
became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond
simple adornment Bsumek unravels the layers of meaning that surround the branding of Indian made When Navajo artisans
produced their goods collaborating traders tourist industry personnel and even ethnologists created a vision of Navajo
culture that had little to do with Navajos themselves And as Anglos consumed Navajo crafts they also consumed the romantic
notion of Navajos as primitives perpetuated by the marketplace These processes of production and consumption reinforced
each other creating a symbiotic relationship and influencing both mutual Anglo Navajo perceptions and the ways in which
Navajos participated in the modern marketplace Ultimately Bsumek shows that the sale of Indian made goods cannot be
explained solely through supply and demand It must also reckon with the multiple images and narratives that grew up
around the goods themselves integrating consumer culture tourism and history to open new perspectives on our
understanding of American Indian material culture BOOK JACKET
