M. Hiranandani,2005 This volume of the navy s history covers the period from 1976 to 1990 It examines the navy s success in keeping abreast of advances in technology in step with progressive self reliance In a decade and a half of innovation the navy equipped its indigenously built frigates corvettes and other vessels with combinations of the latest available weapons and equipment from the Soviet Union from Europe and from indigenous sources A tiny ship design cell which in 1965 was designing yard craft was by 1990 designing an aircraft carrier submarines and missile destroyers The new acquisitions from the Soviet Union ranged from missile destroyers conventional submarines and long range reconnaissance aircraft to minesweepers All these high tech inductions

needed to be operated and manned by better educated and better trained personnel New maintenance repair and refit facilities had to be created The increase in the volume of spares and the diversity of sources compelled modernization of the logistics system This volume analyzes how these problems were tackled

**Trusting God** W. Lewis Sain, 2022-09-14 This book is the story of my life first as a worldly sinner not knowing God's presence in my life and then as a saved and redeemed sinner recognizing and acknowledging God as my Lord and Savior It is how God talked to me about life and showed me how to trust Him through the understanding of what faith is during fifty years as a pilot and as a Christian living life every day a snapshot a moment in time of my experiences My life is not so unique Most people start out their lives not knowing what vocation will be their life's work Mine was no different However with that said it was as if the hand of God has always been on me directing and orchestrating my life He allowed me to recognize His leading and has given me a unique perspective that may be beneficial to others to help them understand this thing which we call life This is my God story

**The Heart of a Dad** George Gibbs II, 2018-02-07 The Heart of A Dad is an unfinished story of the journey of a dad who attempted to practice parenting through the grid of biblical Christianity It is a story about a young man who came out of a fractured and semi-dysfunctional upbringing and discovered a path to functional parenting In this book dads are challenged to maintain strong vibrant relationships with their children through their engagement and their support of their children's dreams Gibbs takes you through several stages in the parenting process from a very practical perspective and he attempts to show not only how he navigated through these different stages but he also shares with you the practical lessons learned from each of these parenting stages For example in chapter five where he discusses The Danger Zone he provides dads with eight practical steps for navigating this period of their children's lives In part two Gibbs explores parenting through the lives of historical biblical characters and he draws parenting lessons for dads from these 12 characters He humanizes them and makes what was done thousands of years ago relevant in parenting today The foundational principles of The Heart of a Dad are discovered in his presentation of Lessons Learned from Enoch who was the father of Methuselah who was the oldest man of historic record he lived 969 years In part three Gibbs unveils parenting lessons as they are seen in the spiritual relationship between God the Father and his children He also explores the theology of God through the biblical relationship that exists between God the Father and His only begotten Son The Heart of a Dad is a fresh look at parenting from an experiential yet biblical perspective Young fathers can learn from the lessons of parenting without making the same mistakes that Gibbs and so many others made by not realizing that there are models that one can follow and that there are navigational maps and tools available for parenting
