There are some things too important to think about you just have to do them. Living is a little like that. Generally thinking is a by-product. So what goes into a life? A collection of experiences the sum total of which filter through memory and in time amounts to what? If you take a chance and turn the pages maybe just maybe you'll come closer to answering that question. Then again maybe not but you'll be no worse off in the process. Cheers.
