**The Unconscious Civilization** John Ralston Saul, 1999-05 John Ralston Saul argues that while Fascism was defeated in World War II its corporatist doctrines powerfully influence our own society today Saul explores how these corporatist priorities have now become so woven into our social fabric that they threaten the practice of Western democracy Our civic order Saul argues has been remade to serve the needs of business managers and technocrats In turn other parts of society have come to mimic this arrangement as they themselves fracture into competing interest groups and ethnic blocs virtually eliminating the role of the citizen This largely unseen social order has deep and vexing roots in Western thought Saul examines how this structure is bolstered today by political and intellectual charlatans who misleadingly describe it as a common sense arrangement rather than what it is an insidious war of attrition against the individual as citizen and the delicate system of open dialogue and doubt that alone guarantees the future of democracy

**The Unconscious Civilization** John Ralston Saul, 2012-11-06 From the author of *Voltaire's Bastards* comes a philosophical examination of how corporatism has become so deeply ingrained into our society how it's destroying democracy and how we can fight against it In this intellectual tour de force John Ralston Saul argues that our society is only superficially based on the individual and democracy and the West now toils unconsciously in the grip of a stifling corporatist structure that serves the needs of business managers and technocrats as it promotes the segmentation of society into competing interest groups and ethnic blocks

*The Unconscious Civilization*, 1995 Governor General's Award Winner Tenth Anniversary Edition with a new preface Our society John Ralston Saul argues in his 1995 CBC Massey Lectures is only superficially based on the individual and democracy Increasingly it is conformist and corporatist a society in which legitimacy lies with specialist or interest groups and decisions are made through constant negotiations between these groups The paradox of our situation is that knowledge has not made us conscious Instead we have sought refuge in a world of illusion where language is cut off from reality Reconnecting language to reality clarifying what we mean by individualism and democracy making these realities central to the citizen's life identifying ideologies in order to control them these are among the first elements of equilibrium which Saul proposes in these lectures

[The Unconscious Civilization](#) John Ralston Saul, 2001 Saul a Canadian essayist and novelist claims that 20th century ideologies have promoted truisms that undermine the acquisition of knowledge and reason and the quest for the public good Instead managers and technocrats are seen as gods passive and conformist politics abound and only salesmanship style and fashion are seen as meaningful Saul argues that the average citizen must rise above a smothering bureaucracy and today's mindless devotion to corporatism to pursue knowledge and active publicly interested civic engagement

*Self-Examination* T. Hoogsteen, 2022-01-28 Christianity or what is called Christianity conforms largely to Western humanism Together and individually believers draw the whole of the West into themselves accommodating its dreams loves greeds and hurts as well as its indulgences contradictions perversions and stupidities All who identify corporately and personally as Christian commit themselves to this world conformity The fMRI like files in the first part of Self Examination may please you even polish your self esteem This whole system of pictures may displease you But each analysis of the West scrutinizes all church people the whole gazing staring intensely back into you This Self Examination therefore is about dispassionate self examination you peering sharply and persistently into your Westernizing soul daringly exposing its innermost workings You thus see in yourselves all the errors of imperialism and racism including injuries to minority people these you will own plus sharing in the responsibilities for mammonism You thus will see your stewardship or lack thereof of the environment Westerners please the powers of the age to make yourselves look good you justify yourselves in the presence of the Western gods and goddesses By living the standards of the West you are good for a purpose you live and work to make your self esteem glow and thereby you please the current deities and in this paradox you still identify as Christian

**The Routledge Companion to Museum Ethics** Janet Marstine, 2012-05-23 Routledge Companion to Museum Ethics is a theoretically informed reconceptualization of museum ethics discourse as a dynamic social practice central to the project of creating change in the museum Through twenty seven chapters by an international and interdisciplinary group of academics and practitioners it explores contemporary museum ethics as an opportunity for growth rather than a burden of compliance The volume represents diverse strands in museum activity from exhibitions to marketing as ethics is embedded in all areas of the museum sector What the contributions share is an understanding of the contingent nature of museum ethics in the twenty first century its relations with complex economic social political and technological forces and its fluid ever shifting sensibility The volume examines contemporary museum ethics through the prism of those disciplines and methods that have shaped it most It argues for a museum ethics discourse defined by social responsibility radical transparency and shared guardianship of heritage And it demonstrates the moral agency of museums the concept that museum ethics is more

than the personal and professional ethics of individuals and concerns the capacity of institutions to generate self reflective and activist practice Cultural Studies and Political Economy Robert E. Babe,2010-05-10 This book addresses the notorious split between the two fields of cultural studies and political economy Drawing on the works of Harold Innis Theodor Adorno Raymond Williams Richard Hoggart E P Thompson and other major theorists in the two fields Robert E Babe shows that political economy can be reconciled to certain aspects of cultural studies particularly with regards to cultural materialism Uniting the two fields has proven to be a complex undertaking though it makes practical sense given the close interaction between political economy and cultural studies Babe examines the evolution of cultural studies over time and its changing relationship with political economy The intersections between the two fields center around three subjects the cultural biases of money the time space dialectic and the dialectic of information Humanizing Education Samuel Daniel Schmalhausen,1927 **The Editor** ,1922 The Meaning of Dreams Isador Henry Coriat,1915 *The Adelphi* ,1926 Art Education Bulletin ,1956 **Bone as a Measure of Development** James Stephen Foote,1928 *The Adelphi* Francis C.
