The Origins of SDI, 1944-1983 Donald R. Baucom, 1992 Most people think Star Wars began with the ideas of Ronald Reagan but its roots reach decades further back In this first scholarly account of the origins of the Strategic Defense Initiative SDI historian Don Baucom traces these roots back to the dawn of the missile age in 1944 He finds SDI emerging after a period of nearly 40 years from forces generated by technological developments changing strategic conditions and the collapse of the SALT arms control negotiations of the 1970s *Recarving Rushmore* Ivan Eland, 2014-10-01 Who were the best and worst U S presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in *Recarving Rushmore* Ivan Eland profiles each U S president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn t all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents *Soviet Cold War Weaponry: Aircraft, Warships, Missiles and Artillery* Anthony Tucker-Jones, 2015-10-30 An in depth visual guide to the aircraft warships and missiles the

Soviet armed forces deployed at the height of the Cold War Throughout the Cold War the United States and the Soviet Union engaged in numerous proxy wars in Africa and the Middle East The Soviet weaponry employed in these conflicts has been captured in a two volume pictorial history by Anthony Tucker Jones This companion to Soviet Cold War Weaponry Tanks and Armoured Vehicles presents detailed photographs of Soviet aircraft warships and missiles in action Between the 1950s and 1980s Soviet and Warsaw Pact countries churned out thousands of weapons ready for the Third World War They also embarked on a technological arms race with NATO in an attempt to counter each new piece of equipment as it appeared The MiG fighters Badger and Backfire bombers and nuclear submarines have achieved almost iconic status but as Anthony Tucker Jones s book shows there was much more to the Soviet armory than these famous weapons Much of it despite its age remains in service with armies guerrilla forces and terrorist organizations around the world today *Military Persuasion* Stephen J. Cimbala,2010-11-01

Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner,1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom
