Soviet Power and the Third World Rajan Menon, 1989 **Limits of Soviet Power** Edward A. Kolodziej, Roger E. Kanet, 2015-12-25 An evaluation of Soviet efforts to penetrate the major regions in the southern hemisphere concluding that success has been modest and continues to be costly It is suggested that a world society could emerge based on socio economic and political competition rather than conflict and arms races **Soviet Power** Jonathan Steele, 1984-10-24 From Simon Schuster Soviet Power is Jonathan Steele s exploration on the Kremlin s foreign policy from Brezhnev to Chernenko This analysis points to a pattern of thwarted strategy and failed objectives which has weakened the influence of the Soviet Union even while its military power has grown but warns that the United States frequently misunderstands Soviet intentions and capabilities

Gorbachev's Retreat Melvin A. Goodman, 1991-06-30 In this fascinating inquiry into the Soviet retreat from the Third World Melvin A Goodman analyzes Gorbachev s policy from the standpoint of disillusionment with the Third World He cites among other reasons for the retreat the diminished strategic significance of the Third World to current Soviet leadership the limitations for Soviet power projection in distant areas and the dilemmas in Moscow s relations with Third World regimes Goodman contends that Gorbachev s foreign policy shift to achieve a more stable international arena and a less militant Soviet stance allowed Moscow to focus on its internal economic problems This volume provides the first exploration of

Afghanistan as a watershed in Soviet thinking on the Third World and discusses the current Soviet emphasis on conflict management and resolution in Third World states particularly Afghanistan Angola Ethiopia and Nicaragua Gorbachev's Retreat explains how cooperation with the United States improves Moscow's image in the West and tends to stabilize Third World flash points Up to the minute data on Soviet military and economic assistance to the Third World as well as Third World responses to the new Soviet policy are also presented The volume examines Soviet retrenchment and retreat in the Third World analyzes Gorbachev's decisions relative to Third World relationships zeroes in on the withdrawal from Afghanistan explores some of the reasons for Soviet power limitations and assesses the regional implications of Gorbachev's New Political Thinking Gorbachev's Retreat then looks at Soviet power projection and crisis management Soviet military and economic aid and Soviet retreat in the 1990s The volume will be particularly useful to undergraduate and graduate courses in foreign policy and international relations as a discussion of the impact of the new Soviet policy in the Third World and the consequences for U S Soviet relations Regional studies specialists will find its in depth analyses of the limits on Soviet actions in the Third World cogent and timely

Blitzkrieg to Desert Storm Robert Michael Citino, 2004 When Germany launched its blitzkrieg invasion of France in 1940 it forever changed the way the world waged war Although the Wehrmacht ultimately succumbed to superior Allied firepower in a two front war its stunning operational achievement left a lasting impression on military commanders throughout the world even if their own operations were rarely executed as effectively Robert Citino analyzes military campaigns from the second half of the twentieth century to further demonstrate the difficulty of achieving decisive results at the operational level Offering detailed operational analyses of actual campaigns Citino describes how UN forces in Korea enjoyed technological and air superiority but found the enemy unbeatable provides analyses of Israeli operational victories in successive wars until the Arab states finally grasped the realities of operational level warfare in 1973 and tells how the Vietnam debacle continued to shape U S doctrine in surprising ways Looking beyond major power conflicts he also reveals the lessons of India's blitzkrieg like drive into Pakistan in 1971 and of the senseless bloodletting of the Iran Iraq War Citino especially considers the evolution of U S doctrine and assesses the success of Desert Storm in dismantling an entrenched defending force with virtually no friendly casualties He also provides one of the first scholarly analyses of Operation Iraqi Freedom showing that its plan was curiously divorced from the realities of military history grounded instead on nebulous theories about expected enemy behavior Throughout Citino points to the importance of mobility especially mobilized armor in modern operational warfare and assesses the respective roles of firepower training doctrine and command and control mechanisms Brimming with new insights Citino's study shows why technical superiority is no guarantee of victory and why a thorough grounding in the history of past campaigns is essential to anyone who wishes to understand modern warfare Blitzkrieg to Desert Storm provides that grounding as it addresses the future of operational level

warfare in the post 9 11 era Gorbachev's Economic Strategy in the Third World Giovanni Graziani,1990-02-15 Giovanni Graziani examines Gorbachev s reforms in terms of economic relations with the Third World and presents a detailed and sophisticated statistical analysis of Soviet economic assistance and trade This book critically evaluates all the statistical data from Soviet and United Nations sources and presents the changing Soviet attitude toward indebtedness and the growing dissatisfaction expressed by both the Third World and the U S S R over the management of Soviet aid The author notes a contradiction between Gorbachev s strategy and statistical evidence for the first years of his office but stresses that the recent moves to trade with South Korea and other Asian countries are bound to affect the Soviet geographical pattern of trade His estimates show the increasing importance of agricultural products and fuels in Soviet imports and of military equipment and fuels in its exports Particularly interesting is what Graziani calls the oil imbroglio a triangular trade pattern in which the U S S R has increased its imports of crude oil from the Third World for reexport to the West in order to stabilize its export earnings in hard currencies threatened by falling oil prices The book concludes that no expansion of Soviet economic ties with the Third World is foreseen in the short run and that eventual Soviet participation in international economic organizations might further entail new conflicts with the Third World Soviet Policy and United States Response in the Third World Library of Congress.
