Jacobsen, 1990-02-23 This book highlights the impact and relevance of strategic culture Each section contains essays contrasting United States and Soviet perceptions on specific topics Each section closes with a synthesizing commentary to help readers to get a better sense of differences and similarities **Soviet Nuclear Weapons Policy** William C. Green, 2019-07-11 This research guide is intended primarily for two groups of specialists The first consists of Sovietologists interested in acquiring a more complete knowledge of Soviet strategic and military policy The second includes strategic analysts interested in expanding their expertise to cover Soviet strategy and thinking However it was assembled so as to be useful as well for non specialists interested in investigating Soviet nuclear weapons policy **A Strategy For Terminating A Nuclear War** Clark C Abt, 2021-11-28 Avoiding a nuclear war or ending one if avoidance fails is an important but relatively unexplored aspect of nuclear doctrine Dr Abt examines the feasibility of antagonists agreeing to exclude their open cities from nuclear targeting and to replace strategic bombardment with retaliatory invasion to create less of a hair 1 trigger deterrent Critical net assessments by U S strategists and the effects of such a strategy on the Soviet Union and on U S allies are considered along with problems implementation might pose The author contends that both deterrence and the potential

for limiting damage are strengthened by pre war plans for a nuclear ceasefire and stalemate short of holocaust **Soviet Nuclear Strategy from Stalin to Gorbachev** Honoré Marc Catudal,1989 *Soviet Strategy and the New Military Thinking* Derek Leebaert,Timothy Dickinson,1992 This book first published in 1991 analyses the unprecedented changes as well as the troubling continuities that characterized Soviet military thinking during the early 1990s **Analyzing Strategic Nuclear Policy** Charles L. Glaser,2014-07-14 With sweeping changes in the Soviet Union and East Europe having shaken core assumptions of U S defense policy it is time to reassess basic questions of American nuclear strategy and force requirements In a comprehensive analysis of these issues Charles Glaser argues that even before the recent easing of tension with the Soviet Union the United States should have revised its nuclear strategy rejecting deterrent threats that require the ability to destroy Soviet nuclear forces and forgoing entirely efforts to limit damage if all out nuclear war occurs Changes in the Soviet Union suggests Glaser may be best viewed as creating an opportunity to make revisions that are more than twenty years overdue Glaser s provocative work is organized in three parts The Questions behind the Questions evaluates the basic factual and theoretical disputes that underlie disagreements about U S nuclear weapons policy Alternative Nuclear Worlds compares mutual assured destruction capabilities MAD a world in which both superpowers societies are highly vulnerable to nuclear retaliation to the basic alternatives mutual perfect defenses U S superiority and nuclear disarmament Would any basic alternatives be preferable to MAD Drawing on the earlier sections of the book Decisions in MAD addresses key choices facing American decision makers Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Lethal Frontiers** Alekseï Georgievich Arbatov,1988-10-24 Lethal Frontiers is one of the first samples of Soviet scholarship on nuclear strategy readily available to Western readers A rising star in the Soviet foreign policy establishment Arbatov offers a remarkable view of the evaluation of U S nuclear policy and strategy This scholarly book is free of the ideological constraints and negative effects of excessive Soviet secrecy so often characterizing Soviet works on this subject The author begins by tracing the buildup of U S nuclear and conventional forces during the Kennedy and Johnson administrations and examines initial U S reactions to the achievement of strategic nuclear parity by the Soviet Union in the late 1960s and early 1970s From notions of flexible response to the Schlesinger doctrine and ideas of fighting a limited nuclear war Arbatov argues that the U S national security establishment has had enormous difficulty in reconciling itself with Soviet strategic parity Consequently U S strategy and arms programs have invariably collided with and contradicted the arms control process and efforts to decrease U S Soviet tensions In light of this and of the new Soviet approach to security Arbatov observes the challenges lying ahead in the new

era of Soviet American relations Prospects for a Soviet Strategy of Controlled Nuclear War Karl Frederick Spielmann, INSTITUTE FOR DEFENSE ANALYSES ARLINGTON VA INTERNATIONAL AND SOCIAL STUDIES DIV., 1976 The study assesses the prospects for a Soviet strategy of controlled nuclear war by focusing primarily on indicators other than the strike instruments themselves Part One analyzes Soviet strategic doctrine as a key indicator of the prospects for a Soviet strategy of controlled nuclear war The analysis encompasses Soviet writings beginning with the early 1960s and evaluates specific Soviet statements on controlled nuclear war Part Two analyzes pertinent aspects and implications of the evolution of Soviet capabilities such as Soviet nuclear strike instruments but principal attention is given to other factors such as command and control capabilities and internal Soviet political and military interests Principal findings and a tentative conclusion on the prospects for a Soviet strategy of controlled nuclear war are presented Soviet Strategic Arms Policy Before SALT Christoph Bluth, 1992-03-12 In this book Dr Christoph Bluth presents an original analysis of the build up of Soviet strategic forces from the death of Stalin to the SALT I agreement The author is able to demonstrate how domestic priorities and internal power struggles account for the seeming inconsistencies of Soviet military and foreign policy
