Spanish is often cited as one of the most beautiful languages on earth That s because Spanish employs the use of many soft
sounds in conjunction with elongated vowels and an endearing and imperative tone in the traditional tone Spanish
vocabulary has a lot of cognates which makes it a rather easy language for English speakers to pick up on A cognate is a
word which is the same between two or more languages For instance in Spanish the word real is exactly the same as it is in
English it s just pronounced differently If language learners can pick up on the differences in natural accents and learn
cognates they can speak great Spanish quickly
