Larson,2015-11-24 This book explores recent experiences in the effort to bring about a Green Revolution in Sub Saharan Africa SSA The chapters focus on rice and maize which are promising and strategic smallholder crops Significantly we find that an African Rice Revolution has already begun in many irrigated areas using Asian type modern varieties chemical fertilizer and improved management practices Further we find that the same technological package significantly increases the productivity and profitability of rice farming in rainfed areas as well We also find evidence that that management training when done well can boost productivity on smallholder farms This suggests that African governments can accelerate the pace of Africa s Rice Revolution by strengthening extension capacity The story for maize is wholly different where most farmers use local varieties apply little chemical fertilizer and obtain very low yields However in the highly populated highlands of Kenya a number of farmers have adopted high yielding hybrid maize varieties and chemical fertilizer as was the case in the Asian Green Revolution apply manure produced by stall fed cows as was the case during the British Agricultural Revolution and keep improved cows or cross breeds from European cows and local stock as was the case of the Indian White Revolution We conclude that while rice in Africa has benefited from an Asian Green Revolution strategy that emphasizes modern seeds inputs and focused knowledge transfers the success of Africa s Maize Revolution will require a different system approach based on hybrid maize chemical and organic fertilizers and stall fed cross bred cows Cajanus ,2004 **Stata Reference Manual** Stata Corporation,1995 **Sustainable Statistical and Data Science Methods and Practices** O. Olawale Awe,Eric A. Vance,2024-01-05 This volume gathers papers presented at the LISA 2020 Sustainability Symposium in Kumasi Ghana May 2 6 2022 They focus on sustainable methods and practices of using statistics and data science to address real world problems From utilizing social media for statistical collaboration to predicting obesity among rural women and from analyzing inflation in Nigeria using machine learning to teaching data science in Africa this book explores the intersection of data statistics and sustainability With practical applications code snippets and case studies this book offers valuable insights for researchers policymakers and data enthusiasts alike The LISA 2020 Global Network aims to enhance statistical and data science capability in developing countries through the creation of a network of collaboration laboratories also known as stat labs These stat labs are intended to serve as engines for development by training the next generation of collaborative

statisticians and data scientists providing research infrastructure for researchers data producers and decision makers and enabling evidence based decision making that has a positive impact on society The research conducted at LISA 2020 focuses on practical methods and applications for sustainable growth of statistical capacity in developing nations **Quality of Service - IWQoS 2001** Lars Wolf,David Hutchison,Ralf Steinmetz,2003-05-15 Welcome to IWQoS2001 in Karlsruhe Quality of Service is a very active research field especially in the networking community Research in this area has been going on for some time with results getting into development and finally reaching the stage of products Trends in research as well as a reality check will be the purpose of this Ninth International Workshop on Quality of Service IWQoS is a very successful series of workshops and has established itself as one of the premier forums for the presentation and discussion of new research and ideas on QoS The importance of this workshop series is also reflected in the large number of excellent submissions Nearly 150 papers from all continents were submitted to the workshop about a fifth of these being short papers The program committee were very pleased with the quality of the submissions and had the difficult task of selecting the relatively small number of papers which could be accepted for IWQoS2001 Due to the tough competition many very good papers had to be rejected Stata Reference Manual: P-St Stata Corporation,2001
