[The Oxford Companion to American Food and Drink](#) Andrew F. Smith, 2007-05-01 Building on the highly praised and deliciously browseable two-volume compendium *The Oxford Encyclopedia of Food and Drink in America*, this new work serves up everything you could ever want to know about American consumables and their impact on popular culture and the culinary world. Within its pages, for example, we learn that Lifesavers candy owes its success to the canny marketing idea of placing the original flavor, mint, next to cash registers at bars. Patrons who bought them to mask the smell of alcohol on their breath before heading home soon found they were just as tasty sober, and the company began producing other flavors. Edited by Andrew Smith, a writer and lecturer on culinary history, the Companion serves up more than just trivia, however, including hundreds of entries on fast food, celebrity chefs, fish sandwiches, regional and ethnic cuisine, food science, and historical food traditions.

[Fermented Beverage Production](#) Andrew G.H. Lea, Andrew Geoffrey Howard Lea, John R. Piggott, 2003-06-30 An essential resource for any company producing or selling fermented alcoholic beverages, it provides a practical overview of production focusing on concepts and processes pertinent to all fermented alcoholic beverages as well as those specific to a variety of individual beverages.
