The Commitments:

The Pragmatics of Making it Explicit Pirmin Stekeler-Weithofer, 2008 Robert Brandom's Making it Explicit 1994 marks a Copernican turn in the philosophy of mind and language as this collection of critical essays together with Brandom's enlightening answers convincingly shows. Though faithful to Wittgenstein's pragmatic turn in spirit Brandom gives a systematic account of human sapience as a whole by grounding our relation to the world by words on our discursive practice assessing its normative basis which is instituted by scorekeeping activities and sanctioning attitudes and thus trying to avoid mystifying mentalism as well as dogmatic naturalism in our account of the human spirit. The topics emphasized in this volume concern the place of Brandom's inferentialist and normative semantics in 20th century philosophy of language. Frege Carnap Quine also in comparison to cognitive linguistics Chomsky instrumentalist pragmatism and functionalist understanding of the use of signs Sellars deflation of intentionality Brentano the logical analysis of predicative structures Kant the role of constructions for understanding the constitution of objectivity by *de re* ascriptions and the problem of anti-representationalism or how to treat malapropisms Davidson. This volume was originally published as a Special Issue of *Pragmatics Cognition* 13 1 2005
