The Closing Circle:

The Closing Circle Barry Commoner, 2014-03-05 From Chapter One This book begins with the ecosphere the setting in which civilization has done its great and terrible deeds Then it moves to a description of some of the damage we have done to the ecosphere to the air the water the soil However by now such horror stories of environmental destruction are familiar even tiresome Much less clear is what we need to learn from them and so I have chosen less to shed tears for our past mistakes than to try to understand them Most of this book is an effort to discover which human acts have broken the circle of life and why I trace the environmental crisis from its overt manifestations in the ecosphere to the ecological stresses which they reflect to the faults in productive technology and in its scientific background that generate these stresses and finally to the economic social and political forces which have driven us down this self destructive course All this in the hope and expectation that once we understand the origins of the environmental crisis we can begin to manage the huge undertaking of surviving it [The Closing Circle](#) Barry Commoner, 1974 [The Closing Circle ; Man, Nature, and Technology \[by\] Barry Commoner](#) Barry Commoner, 1975 **The Closing Circle** Barry Commoner, 1974 This book describes the ecosphere how it has been damaged and the economic social and political systems which have created the environmental and energy crises The author calls for social action to close the circle of life so that we may restore to nature the wealth that we borrow from it
