

SOCIAL INTEGRATION

The process by which newcomers are incorporated into a society. It differs from assimilation because integration does not require losing your unique cultural identity.

DEFINITION

Woolcock defines social integration as:

"the process by which individuals become incorporated into the social and economic fabric of a community, region or nation, and the extent to which they participate in the major institutions and activities of that community" (1998)

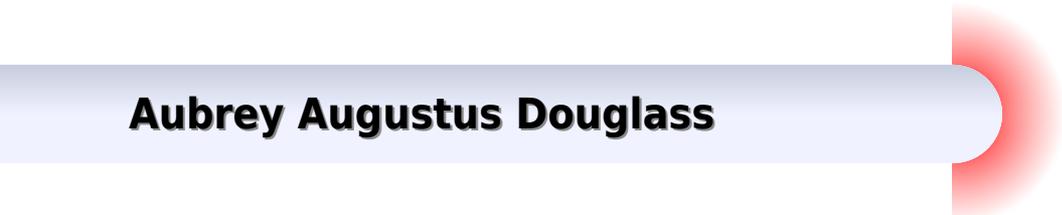

EXAMPLE

Friendships

Friendships, the personal connections between individuals, are usually seen as an important measure of social integration as they promote understanding and acceptance of diversity. By making friends, you also increase your social capital, giving you the connections to help navigate future social situations.
