Beobachtungen Tartu Ülikool Tähetorn, 1929      Gospel Philosophy Joseph Harvey Ward, 1884 Sectarians generally dread meeting a Mormon Elder in discussion for they well know the humiliating defeat which has been the result to

their compeers in hundreds of instances But there is another class of persons who often bring formidable looking arguments against the truths of the gospel This class is composed frequently of persons of considerable learning research and intelligence They have long ago become disgusted with the absurdities of so called Christianity and are not slow in showing the disagreement of sectarian dogmas with the teachings of the Bible or contrasting the Bible with supposed science In some instances otherwise valuable scientific works are marred by sneers at the books of inspiration In this age of earnest thought and research into all branches of knowledge many of these works fall into the hands of the young and hence the growth of skepticism in the minds of many Many of the facts contained in this work have been collected from and references made to larger works not easily accessible to the general reader
