Whats Left:

The Race for What's Left Michael Klare, 2012-03-13 Journalist Klare describes the impact the coming shortage of natural resources will have on the future of the human race

What's on the Air, 1930 The Strange Non-death of Neo-liberalism Colin Crouch, 2011-08-08 Winner of the Friedrich Ebert Stiftung prize The financial crisis seemed to present a fundamental challenge to neo liberalism the body of ideas that have constituted the political orthodoxy of most advanced economies in recent decades Colin Crouch argues in this book that it will shrug off this challenge The reason is that while neo liberalism seems to be about free markets in practice it is concerned with the dominance over public life of the giant corporation This has been intensified not checked by the recent financial crisis and acceptance that certain financial corporations are too big to fail Although much political debate remains preoccupied with conflicts between the market and the state the impact of the corporation on both these is today far more important Several factors have brought us to this situation Most obviously the lobbying power of firms whose donations are of growing importance to cash hungry politicians and parties The weakening of competitive forces by firms large enough to shape and dominate their markets The power over public policy exercised by corporations enjoying special relationships with government as they contract to deliver public services The moral initiative that is grasped by enterprises that devise their own agendas of corporate social responsibility Both democratic politics and the free market are weakened by these processes but they are largely inevitable and not always malign Hope for the future therefore cannot lie in suppressing them in order to attain either an economy of pure markets or a socialist society Rather it lies in dragging the giant corporation fully into political controversy Here a key role is played by the small cash strapped campaigning groups who with precious little help from established parties seek to achieve corporate social accountability

Securitizations of Citizenship Peter Nyers, 2009-05-19 *Securitizations of Citizenship* critically assesses the fate of citizenship in relation to securitized practices of surveillance and control that have emerged in the post 9 11 period

Unveiling the Truth Melinda Feliciano, 2011-11-23 This book of poems gives the readers a reflection of the way the author sees herself as a person as a woman and how she wants others to perceive her It talks about how she doesn't need any other person to tell her what to do and how to live her life Being an independent woman makes her realize how short life is and how people should take advantage of every situation Reading each poem would help change the way a person sees himself as an individual and how one would want to be remembered

The Night Never Sleeps Brian M. Spradlin, 2010-07 *The Night Never Sleeps* is a dark and intense collection of poetry bringing together author Brian M Spradlin's favorite poems from his past with a voluminous amount of recent work Filled with despair and soul searching both for the elements that have passed him by and for the desire to find meaning and relevance this collection visits recurring themes of solitude darkness relationships and distrust In the selection *Lament* Spradlin writes about the darkness night shines a deadly smile at me let the sinners roam and flee it's in this world that I relate to things that I've yet to create and so the march goes on and

on as i attempt to block the sun because brightness never has been me let me lament to let things be let be An avid poet and songwriter for more than twenty years Spradlin penned the bulk of the poems in the hushed cold of winter Like the season they were written in the feelings are sometimes frigid but also thoughtful and provocative In *The Night Never Sleeps* Spradlin shares the demons he has conquered and the ones he has yet to vanquish *The Sea Hawk* Bailey Millard,1910
