Sustainability Marketing in Emerging Economies Albert Anani-Bossman, Takalani E. Mudzanani, Devika Pillay, 2025-02-28 This book addresses the environmental social and economic challenges that corporations in emerging economies face focusing on sustainability marketing as a paradigm shifting approach Drawing from cases across several emerging economies including South Africa Ghana Nigeria and Turkey it examines how organisations can create long term societal value through sustainable practices Reflecting the increasing pressure for organisations to adopt sustainability practices the need for this book is rooted in what organisations in emerging economies stand to gain from the adoption and implementation of sustainable marketing strategies Chapters address consumer behaviour and demonstrate best practices for integrating sustainability into marketing strategies The opportunities and challenges associated with implementing sustainability strategies post COVID are also explored This book therefore offers essential pathways and shares evidence of sustainability marketing Covering topics such as the sustainability marketing mix social marketing sustainable consumption and the role of communication it is a valuable contribution to the ongoing discussion on sustainability from the perspective of emerging economies

Zero Waste Home Bea Johnson, 2013-04-09 A practical guide for reducing waste in the home offers tools and tips for going zero waste discussing how to make cosmetics and cleaning supplies pack lunches without plastic and weed out unnecessary appliances Shows how the author transformed her family s life for the better by reducing their waste to an astonishing 1 liter per year part practical guide that gives readers tools tips to diminish their footprint simplify their lives Publishers Description

Understanding Environmental Pollution Marquita K. Hill, 2020-07-09 This undergraduate textbook examines environmental pollution ranging from our homes to the global environment Completely updated and with over 50% new and rewritten material this new edition assesses the international scope of pollution including water climate change acidification energy solid and hazardous waste persistent

chemicals and pesticides The pollutants of current major concern are examined including plastics and electronic waste Both the impacts and the sources of pollution are addressed as well as governmental corporate and personal responsibility for pollution Pollution prevention is emphasized throughout but students will come to see that prevention is not enough The text moves on to examine a circular economy with closed loop systems where by products are reused wastes become raw materials water is recycled and energy is recovered from waste energy Understanding Environmental Pollution engages students with the idea that humanity holds the tools to confronting the daunting pollution issues by considering a circular economy
