Style And Consciousness In Middle English Narrative:

Style and Consciousness in Middle English Narrative John M. Ganim, 2014-07-14 John M Ganim presents a revised theory of late medieval literary history based on the relationship of the poet to the reader His work shows how the increasingly compromised exemplary intent of later medieval poets led them to dramatize the reader as a character in the text and to develop complex forms of narrative characterized by discontinuity distortion and disorientation Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
