

The 5 Factors That Raise Your Chances of Drug Addiction

Family History

While everyone has the potential to develop an addiction, some people are more predisposed to SUD than others

Adverse Experiences

The more stressors present over the course of an individual's life span, the higher the risk is regardless of how long ago each stressor took place

Impaired Control

It is important to assess whether an individual has tried to cut down or stop use unsuccessfully

Age of Initiation

The younger an individual starts using alcohol or drugs the more their risk increases for being diagnosed with a substance disorder

Stage of Change

Change in behavior progresses through clear stages, we must identify which stage of change an individual is in so appropriate interventions are selected
