Subversive Genealogy:

Subversive Genealogy Michael Rogin, 1985-04-18 This book makes several claims which ought to be stated at the outset that Herman Melville is a recorder and interpreter of American society whose work is comparable to that of the great nineteenth century European realists that there was crisis of bourgeois society at midcentury on both continents but that in America it entered politics by way of slavery and race rather than class that the crisis called into question the ideal realm of liberal political freedom and also that Melville was particularly sensitive to the American crisis because of the political importance of his clan and the political history of his family

Cruel and Unusual Brian Jarvis, 2004-01-20 From the excesses of Puritan patriarchs to the barbarism of slavery and on into the prison industrial complex punishment in the US has a long and gruesome history In the post Vietnam era the prison population has increased tenfold and the death penalty has enjoyed a renaissance Cruel and Unusual offers an exploration of the history of punishment as mediated in American culture Grounding his analysis in Marxist theory psychoanalysis and Foucault's influential work on discipline Brian Jarvis examines a range of cultural texts from seventeenth century execution sermons to twenty first century prison films to uncover the politics economics and erotics of punishment This wide ranging and interdisciplinary survey constructs a genealogy of cruelty through close reading of novels by Hawthorne and Melville fictional accounts of the Rosenberg execution by Coover and Doctorow slave narratives and prison writings by African Americans and the critically neglected genre of American prison films

Habermas and Religion Craig Calhoun, Eduardo Mendieta, Jonathan VanAntwerpen, 2016-03-18 To

the surprise of many readers Jürgen Habermas has recently made religion a major theme of his work. Emphasizing both religion's prominence in the contemporary public sphere and its potential contributions to critical thought, Habermas's engagement with religion has been controversial and exciting, putting much of his own work in fresh perspective and engaging key themes in philosophy, politics, and social theory. Habermas argues that the once widely accepted hypothesis of progressive secularization fails to account for the multiple trajectories of modernization in the contemporary world. He calls attention to the contemporary significance of postmetaphysical thought and postsecular consciousness even in Western societies that have embraced a rationalistic understanding of public reason. Habermas and Religion presents a series of original and sustained engagements with Habermas's writing on religion in the public sphere, featuring new work and critical reflections from leading philosophers, social and political theorists, and anthropologists. Contributors to the volume respond both to Habermas's ambitious and well-developed philosophical project and to his most recent work on religion. The book closes with an extended response from Habermas himself, a major statement from one of today's most important thinkers.

Confucianism and Reflexive Modernity Sang-Jin Han, 2019-12-16 Confucianism and Reflexive Modernity offers an excellent example of a dialogue between East and West by linking post-Confucian developments in East Asia to a Western idea of reflexive modernity originally proposed by Ulrich Beck, Anthony Giddens, and Scott Lash in 1994. The author makes a sharp confrontation with the paradigm of Asian Value Debate led by Lee Kwan Yew and defends a balance between individual empowerment and flourishing community for human rights, basically in line with Jürgen Habermas but in the context of global risk society, particularly from an enlightened perspective of Confucianism. The book is distinguished by sophisticated theoretical reflection, comparative reasoning, and solid empirical argument concerning Asian identity in transformation and the aspects of reflexive modernity in East Asia.

[Beyond the Analytic-Continental Divide](#) Jeffrey A. Bell, Andrew Cutrofello, Paul M. Livingston, 2015-08-27 This forward-thinking collection presents new work that looks beyond the division between the analytic and continental philosophical traditions, one that has long caused dissension, mutual distrust, and institutional barriers to the development of common concerns and problems. Rather than rehearsing the causes of the divide, contributors draw upon the problems, methods, and results of both traditions to show what post-divide philosophical work looks like in practice. Ranging from metaphysics and philosophy of mind to political philosophy and ethics, the papers gathered here bring into mutual dialogue a wide range of recent and contemporary thinkers and confront leading problems common to both traditions, including methodology, ontology, meaning, truth, values, and personhood. Collectively, these essays show that it is already possible to foresee a future for philosophical thought and practice, no longer determined either as analytic nor as continental, but instead as a pluralistic synthesis of what is best in both traditions. The new work assembled here shows how the problems, projects, and ambitions of twentieth-century philosophy are already being taken up and productively transformed to produce new insights, questions, and methods for philosophy today.
