The Cheyenne Encounter:

Encounters at the Heart of the World Elizabeth A. Fenn, 2014-03-11 *Encounters at the Heart of the World* concerns the Mandan Indians iconic Plains people whose teeming busy towns on the upper Missouri River were for centuries at the center of the North American universe We know of them mostly because Lewis and Clark spent the winter of 1804 1805 with them but why don't we know more Who were they really Elizabeth A Fenn retrieves their history by piecing together important new discoveries in archaeology anthropology geology climatology epidemiology and nutritional science By 1500 more than twelve thousand Mandans were established on the northern Plains and their commercial prowess agricultural skills and reputation for hospitality became famous Recent archaeological discoveries show how they thrived and then how they collapsed The damage wrought by imported diseases like smallpox and the havoc caused by the arrival of horses and steamboats were tragic for the Mandans yet as Fenn makes clear their sense of themselves as a people with distinctive traditions endured Source nconnue

Violent Encounters Deborah Lawrence, Jon Lawrence, 2012-09-13 Merciless killing in the nineteenth century American West as this unusual book shows was not as simple as depicted in dime novels and movie Westerns The scholars interviewed here experts on violence in the West embrace a wide range of approaches and perspectives and challenge both traditional views of western expansion and politically correct ideologies The Battle of the Little Big Horn the Sand Creek Massacre the Battle of the Washita and the Mountain Meadows Massacre are iconic events that have been repeatedly described and analyzed but the interviews included in this volume offer new points of view Other events discussed here are little known today such as the Camp Grant Massacre in which Anglo Americans Mexican Americans and Tohono O odham Indians killed more than a hundred Pinal and Aravaipa Apache men women and children In addition to specific events the interviews cover broader themes such as violence in early California hostilities between the frontier army and the Sioux including the Santee Sioux Revolt and Wounded Knee and violence between European Americans and Great Basin tribes such as the Bear River Massacre The scholars interviewed include academic historians public historians an anthropologist and a journalist The interview format provides insights into the methodology and tools of historical research and allows questions and speculations often absent from conventional written accounts The scholars share their latest thoughts on long standing controversies address the political uses often made of history and discuss the need to incorporate multiple viewpoints Scholars and students of history and historiography will be fascinated by the nuts and bolts information about the practice of history revealed in these interviews In addition readers with specific interests in the events discussed will gain much new information and many fresh insights

Leiker,2012-09-13 The exodus of the Northern Cheyennes in 1878 and 1879 an attempt to flee from Indian Territory to their Montana homeland is an important event in American Indian history It is equally important in the history of towns like Oberlin Kansas where Cheyenne warriors killed more than forty settlers The Cheyennes in turn suffered losses through violent encounters with the U S Army More than a century later the story remains familiar because it has been told by historians and novelists and on film In The Northern Cheyenne Exodus in History and Memory James N Leiker and Ramon Powers explore how the event has been remembered told and retold They examine the recollections of Indians and settlers and their descendants and they consider local history mass media treatments and literature to draw thought provoking conclusions about how this story has changed over time The Cheyennes journey has always been recounted in melodramatic stereotypes and for the last fifty years most versions have featured noble savages trying to reclaim their birthright Here Leiker and Powers deconstruct those stereotypes and transcend them pointing out that history is never so simple The Cheyennes flight they write had left white and Indian bones alike scattered along its route from Oklahoma to Montana In this view the descendants of the Cheyennes and the settlers they encountered are all westerners who need history as a way of explaining the bones and arrowheads that littered the plains Leiker and Powers depict a rural West whose diverse peoples Euro American and Native American alike seek to preserve their heritage through memory and history Anyone who lives in the contemporary Great Plains or who wants to understand the West as a whole will find this book compelling The Southwestern Historical Quarterly ,1928
