Samuel Charles Hill

The Black Towns:

The Black Towns Norman L. Crockett, 1979 From Appomattox to World War I blacks continued their quest for a secure position in the American system The problem was how to be both black and American how to find acceptance or even toleration in a society in which the boundaries of normative behavior the values and the very definition of what it meant to be an American were determined and enforced by whites A few black leaders proposed self segregation inside the United States within the protective confines of an all black community as one possible solution The black town idea reached its peak in the fifty years after the Civil War at least sixty black communities were settled between 1865 and 1915 Norman L Crockett has focused on the formation growth and failure of five such communities These include Nicodemus Kansas Mound Bayou Mississippi Langston Oklahoma and Boley Oklahoma The last two offer opportunity to observe aspects of Indian black relations in this area

The Black Towns Norman L. Crockett, 2021-10-08 From Appomattox to World War I blacks continued their quest for a secure position in the American system The problem was how to be both black and American how to find acceptance or even toleration in a society in which the boundaries of normative behavior the values and the very definition of what it meant to be an American were determined and enforced by whites A few black leaders proposed self segregation inside the United States within the protective confines of an all black community as one possible solution The Black town idea reached its peak in the fifty years after the civil War at least sixty Black communities were settled between 1865 and 1915 Norman L Crockett has focused on the formation growth and failure of five such communities The towns and the date of their settlement are Nicodemus Kansas 1879 established at the time of the Black exodus from the South Mound Bayou Mississippi 1897 perhaps the most prominent black town because of its close ties to Booker T Washington and Tuskegee Institute Langston Oklahoma 1891 visualized by one of its promoters as the nucleus for the creation of an all Black state in the West and Clearview 1903 and Boley 1904 in Oklahoma twin communities in the Creek Nation which offer the opportunity observe certain aspects of Indian Black relations in this area The role of Black people in town promotion and settlement has long been a neglected area in western and urban history Crockett looks at patterns of settlement and leadership government politics economics and the problems of isolation versus interaction with the white communities He also describes family life social life and class structure within the Black towns Crockett looks closely at the rhetoric and behavior of Black people inside the limits of their own community isolated from the domination of whites and freed from the daily reinforcement of their subordinate rank in the larger society He finds that long before Black is beautiful entered the American vernacular Black town residents exhibited a strong sense of race pride The reader observes in microcosm Black attitudes about many aspects of American life as Crockett ties the Black town experience to the larger question of race relations at the turn of the century This volume also explains the failure of the Black town dream Crockett cites discrimination lack of capital and the many forces at work in the local regional and national economies He shows how the

racial and town building experiment met its demise as the residents of all Black communities became both economically and psychologically trapped This study adds valuable new material to the literature on Black history and makes a significant contribution to American social and urban history community studies and the regional history of Kansas Oklahoma and Mississippi

Black Towns and Profit Kenneth Marvin Hamilton,1991 Black towns include Nicodemus Kansas Mound Bayou Mississippi Langston City Oklahoma Boley Oklahoma and Allensworth California

Black Towns, Black Futures Karla Slocum,2019-09-17 Some know Oklahoma s Black towns as historic communities that thrived during the Jim Crow era this is only part of the story In this book Karla Slocum shows that the appeal of these towns is more than their past Drawing on interviews and observations of town life spanning several years Slocum reveals that people from diverse backgrounds are still attracted to the communities because of the towns remarkable history as well as their racial identity and rurality But that attraction cuts both ways Tourists visit to see living examples of Black success in America while informal predatory lenders flock to exploit the rural Black economies In Black towns there are developers return migrants rodeo spectators and gentrifiers too Giving us a complex window into Black town and rural life Slocum ultimately makes the case that these communities are places for affirming building and dreaming of Black community success even as they contend with the sometimes marginality of Black and rural America
