The Blue Marble:

Captured World History: The Blue Marble Don Nardo,2014 The astronauts headed to the moon in December 1972 thought they knew what to expect They would soon be exploring the moon s surface in a lunar rover traveling farther than anyone before them They would be collecting soil and rock samples for study back on Earth and could expect to learn about the moon s physical makeup and age But what they didn t expect came as a huge bonus The astronauts of Apollo 17 would produce an amazing photograph of planet Earth a lonely globe floating in inky black space Their stunning Blue Marble image was destined to become one of the most reproduced and recognizable photos in history And no one is 100 percent sure who took it *Blue Marble 1 T/r/file Booklet ,2007* **Postcards from the Anthropocene.** Benek Cincik,Tiago

Earth taken by NASA's Apollo 17 mission in 1972. The photograph shows our planet as a beautiful blue and white sphere floating in the vast expanse of space. The image has become a symbol of our planet's fragility and interconnectedness and it has inspired many to take action to protect the Earth and its diverse ecosystems. The Earth is home to an incredible array of life from the tiniest microorganisms to the largest mammals. Its complex systems such as the water cycle and the carbon cycle sustain life on the planet. Despite its natural wonders, the Earth faces numerous challenges including climate change, pollution, and biodiversity loss. It is up to all of us to take care of our planet and ensure that it remains a vibrant and healthy place for generations to come. **Bulletin**, 1916 *The Greatest Lie on Earth (Expanded Edition)* Edward

Hendrie, 2018-09-12. This book reveals the mother of all conspiracies. It sets forth biblical proof and irrefutable evidence that will cause the scales to fall from your eyes and reveal that the world you thought existed is a myth. The most universally accepted scientific belief today is that the earth is a globe spinning on its axis at a speed of approximately 1,000 miles per hour at the equator while at the same time it is orbiting the sun at approximately 66,600 miles per hour. All of this is happening as the sun in turn is supposed to be hurtling through the Milky Way galaxy at approximately 500,000 miles per hour. The Milky Way galaxy itself is alleged to be racing through space at a speed ranging from 300,000 to 1,340,000 miles per hour. What most people are not told is that the purported spinning, orbiting, and speeding through space has never been proven. In fact, every scientific experiment that has ever been performed to determine the motion of the earth has proven that the earth is stationary. Yet textbooks ignore the scientific proof that contradicts the myth of a spinning and orbiting globe. Christian schools have been hoodwinked into teaching heliocentrism despite the clear teaching in the Bible that the earth is not a sphere and does not move. This book reveals the evil forces behind the heliocentric deception and why scientists and the Christian churches have gone along with it. **Bulletin** North Carolina State University, Dept. of Engineering
