

CREATIONISM V. THE OTHER WORLDVIEWS

The Case For Creationism

Louis Ginzberg

The Case For Creationism:

The Case for Creationism Colin Mitchell,1994 Abusing Science Philip Kitcher,1983-06-23 Abusing Science is a manual for intellectual self defense the most complete available for presenting the case against Creationist pseudo science It is also a lucid exposition of the nature and methods of genuine science The book begins with a concise introduction to evolutionary theory for non scientists and closes with a rebuttal of the charge that this theory undermines religious and moral values It will astonish many readers that this case must still be made in the 1980s but since it must Philip Kitcher makes it irresistibly and forcefully Not long ago a federal court struck down an Arkansas law requiring that scientific Creationism be taught in high school science classes Contemporary Creationists may have lost one legal battle but their cause continues to thrive Their efforts are directed not only at state legislatures but at local school boards and textbook publishers As Kitcher argues in this rigorous but highly readable book the integrity of science is under attack The methods of inquiry used in evolutionary biology are those which are used throughout the sciences Moreover modern biology is intertwined with other fields of science physics chemistry astronomy and geology Creationists hope to persuade the public that education in science should be torn apart to make room for a literal reading of Genesis Abusing Science refutes the popular complaint that the scientific establishment is dogmatic and intolerant denying academic freedom to the unorthodox It examines Creationist claims seriously and systematically one by one showing clearly just why they are at best misguided at worst ludicrous *The Case for Creation* Wayne Frair,P. William Davis,1967 The Scientific Case Against Scientific Creationism Jon P. Alston,2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles *From Genesis to Genetics* John A. Moore,2002-01-24 From Genesis to Genetics shows us why we must free both science and religion to do the good work for which each is uniquely qualified

Evolution Vs. Creationism Eugenie Carol Scott,2005 Almost eighty years after the Scopes trial the debate over the teaching of evolution continues to rage There is no easy resolution it is a complex topic with profound scientific religious educational and legal implications How can a student or parent understand this issue which is such a vital part of education Evolution vs Creationism provides a badly needed comprehensive and balanced survey Written by one of the leading advocates for the teaching of evolution in the United states this accessible resource provides an introduction to the many

facets of the current debate the scientific evidence for evolution the legal and educational basis for its teaching and the various religious points of view as well as a concise history of the evolution creationism controversy Each of the four sections of Evolution vs Creationism provides a resource that will assist the reader in better understanding these issues The first section addresses the nature of how evolution works as part of the scientific enterprise as well as a summary of the relationship between religious beliefs and science A section on the history of the controversy provides a handy synopsis of the lengthy struggles from before Darwin to the present day between advocates of creationism and the proponents of evolution A collection of primary source documents addressing cosmology law education and religious issues from all sides of the debate constitute the third section The book concludes with a selection of resources for further information for those who wish to study the topic in more depth

Science on Trial Douglas J. Futuyma,1983 **Fallacies of Evolution** Arlie J. Hoover,1977 The Creation of the Presidency, 1775-1789 Charles Coleman Thach (Jr.),1923 *Reports of Cases Argued and Adjudged in the Supreme Court of the United States* United States. Creation and the supernatural order** Joseph Wilhelm,Thomas Bartholomew Scannell,1890

A Theory of Creation John Charles Whish,1882 **A Case for Young-Earth Creationism** Paul Nelson,John Mark Reynolds,2012-04-10 Derived from Three Views on Creation and Evolution this digital short provides a vivid defense for the view that God created the world relatively recently and in six days Critical of current scientific consensus though not abrasively so the authors present biblical philosophical and scientific supports for their perspective Their clear argumentation makes this one of the best presentations of a historic if recently maligned viewpoint one that will be useful to proponents and opponents alike The Creation of Manitoba Alexander Begg,1871 **Clearer Light; Or, The Teachings of the Bible, Respecting the Creation, the Original Inhabitants of the Earth, the Diversities of the Human Race, and Other Questions of the Day** Layman,1874 **The Creation and the Scripture** Gilbert Chichester Monell,1882

Creationism on Trial Langdon Gilkey,1985 Creationism on Trial is Langdon Gilkey s fascinating blow by blow account of his experiences as a witness for the ACLU at the 1981 creationist trial in Little Rock Arkansas This courtroom drama between state supported creation science fundamentalists and ACLU supported scientists theologians and liberal teachers was an engrossing spectacle at the time and has been much talked about since Gilkey a renowned theological writer brings to life principal characters and entertaining anecdotes from the trial and effortlessly translates the abstract religious concepts of the case into digestible language Highlighted by a new introduction that takes into account recent directions in the creationism debate this book will once again provoke discussion in classes of theology and religion *The Legends of the Jews: Bible times and characters from the creation to Jacob* Louis Ginzberg,1913 *Christ in Creation and Ethical Monism* Augustus Hopkins Strong,1899
