The Chaucerian Apocrypha A Counterfeit Canon:

The Chaucerian Apocrypha Kathleen Forni, 2001 This first modern treatment of the Chaucerian Apocrypha the 51 spurious works included in the folio editions printed between 1532 and 1721 addresses the nature of canon formation and why the apocrypha became a Chaucerian canon of its own while making a larger argument about how Chaucer is constructed or invented by his readers Tracing their transition from manuscript to print Kathleen Forni analyzes how these works became associated with Chaucer and historicizes the creation of the folio canon Taking case examples and select editors and critics from the 15th through the 20th centuries she offers detailed accounts of how they responded to or participated in the construction of the apocrypha Emphasizing the individuality of each work s history and the influence of specific historical forces and personages she offers provocative commentaries on the works providing time capsules of the history of Chaucer scholarship and a miniature anthology of Chaucerian criticism itself Forni collects virtually all of the scholarly references and discussions of apocryphal texts and assembles a working canon of the apocrypha listing every manuscript and early printed book containing on Chaucer in the Eighteenth Century David Hopkins, Tom Mason, 2022 Examines how the poetry of Chaucer continued to give pleasure in the eighteenth century despite the immense linguistic literary and cultural shifts that had occurred between the fourteenth and eighteenth centuries Playing the Canterbury Tales Andrew Higl, 2016-04-22 Playing the Canterbury Tales addresses the additions continuations and reordering of the Canterbury Tales found in the manuscripts and early printed editions of the Tales Many modern editions present a specific set of tales in a specific order and often leave out an entire corpus of continuations and additions Andrew Higl makes a case for understanding the additions and changes to Chaucer s original open and fragmented work by thinking of them as distinct interactive moves in a game similar to the storytelling game the pilgrims play Using examples and theories from new media studies Higl demonstrates that the Tales are best viewed as an interactive fiction reshaped by active readers Readers participated in the ongoing creation and production of the tales by adding new text and rearranging existing text and through this textual transmission they introduced new social and literary meaning to the work This theoretical model and the boundaries between the canonical and apocryphal texts are explored in six case studies the spurious prologues of the Wife of Bath s Tale John Lydgate s influence on the Tales the Northumberland manuscript the ploughman character and the Cook s Tale The Canterbury Tales are a more dynamic and unstable literary work than usually encountered in a modern critical edition

The Chaucerian Apocrypha Kathleen Forni, 2005-07-01 The poems in this volume were prized and preserved because of their association with Chaucer s name and have been paradoxically almost entirely ignored by modern readers for the same reason Many of these pieces are worthy of study not only in the context of Chaucerian reception but also as specimens of the kinds of vernacular poetry that circulated in late medieval manuscripts and which remained in print largely by the accidental virtue of their association with Chaucer throughout the Renaissance and well into the nineteenth century The various genres

represented in this sampler the dream vision good counsel female panegyric mass parody proverbial wisdom lover's dialogue prophecy advice to princes elegiac complaint courtly parody and anti feminist satire attest to the diversity of late medieval literary tastes and to the flexibility of the courtly idiom In the sixteenth century both Chaucer's poetry and the diverse works with which it circulated appear to have continued to have been valued for their perceived courtly qualities Chaucer's early scribal and print editors also appear to have prized his sphere of influence attested to by imitation continuation and emendation and his adaptability to contemporary social and political needs [The Chaucerian Apocrypha](#) Kathleen Forni, 2005 The poems in this volume were prized and preserved because of their association with Chaucer's name and have been paradoxically almost entirely ignored by modern readers for the same reason The various genres represented in this sampler attest to the diversity of late medieval literary tastes and to the flexibility of the courtly idiom [Authenticity in Medieval and Early Modern Literature](#) Rebecca Menmuir, 2025-06-30 What does it mean to be authentic The term is as pervasive today as it is difficult to define To be authentic in the Middle Ages or Early Modernity was no less of a complex task albeit framed in ways different to today's concept of authenticity as an individualistic or capitalistic venture think being true to oneself or brand authenticity This volume examines a range of medieval and early modern approaches to authenticity in literature asking how authenticity was defined privileged constructed and contested in the periods covered Essays trace the shifting status of authenticity across four literary categories which most test the concept of premodern authenticity forgeries histories translations and continuations Contributions engage with works across Latin Greek English French and Irish and set authenticity in conversation with medieval and modern perspectives on authority truth and morality [Studies in the Age of Chaucer](#) David Matthews, 2010-01-15 *Studies in the Age of Chaucer* is the annual yearbook of the New Chaucer Society publishing articles on the writing of Chaucer and his contemporaries their antecedents and successors and their intellectual and social contexts More generally articles explore the culture and writing of later medieval Britain 1200-1500 Each SAC volume also includes an annotated bibliography and reviews of Chaucer related publications **Chaucerian Dream Visions and Complaints** Dana M. Symons, 2004 On several counts one particular collection of French lyrics made in France in the late fourteenth century University of Pennsylvania MS 15 is the most likely repository of Chaucer's French poems It is the largest manuscript anthology extant of fourteenth century French lyrics in the formes fixes balade rondeaux virelay lay and five stanza chanson with by far the largest number of works of unknown authorship The known authors represented in the manuscript and the texts themselves have notable associations with England and with Chaucer And intriguingly there are fifteen lyrics each headed by the initials Ch very likely indications of authorship neatly inserted between rubric and text The rubrics together with other substantial manuscript evidence and the intrinsic worth of the poems make them easily the best candidates among extant French lyrics for Chaucer's authorship appropriate representatives of his French work from the Introduction [Renaissance Papers 2009](#) Christopher Cobb, 2010 Renaissance

Papers is a collection of the best scholarly essays submitted each year to the Southeastern Renaissance Conference The Conference accepts papers on all subjects relating to the Renaissance from scholars all over North America and the world

Sex and Sexuality in a Feminist World Karen A. Ritzenhoff, Katherine A. Hermes, 2009 Sex and sexuality are topics that have defined feminism since its inception What has changed is that there is now a generation of feminists and scholars who are comfortable not only to write in their own disciplines but who incorporate feminist ideas in their research This book assembles a variety of essays most of which were written especially for this collection that negotiate sex and sexuality in historical contexts as well as in contemporary times There is a common ground of history and popular culture among the articles While different theories of feminism operate in these essays feminist lenses have allowed the reevaluation of familiar topics from early religious practices to medieval literature to current films and advertising The authors represented in this collection range from established feminist and gender scholars to those who employ feminist theoretical frameworks in their respective disciplines

Chaucer and Langland John M. Bowers, 2007 Examines the political social and religious factors that contributed to the formation of a literary canon in fourteenth century England This book tracks the reputations of Geoffrey Chaucer and William Langland into the fifteenth century when studies of 14th century literature became configured in terms of a double antagonistic dynamic

Transmission and Transformation in the Middle Ages Kathy Cawsey, Jason Harris, 2007 Nine case studies of cultural or textual transformation in the medieval period are presented here Written by some of Ireland's leading younger medievalists these essays study cultural and literary transmission over the course of eight centuries in medieval England and Ireland Integrating perspectives from literary scholarship philology and cultural history these essays both address specific moments of cultural transformation and build an overall image of the dynamic engagements of individual medieval authors with the texts and traditions they inherited Contributors Christine Thijs UCD Letty Nijhuis TCD Emma Nic Carthaigh UCC Jason Harris UCC Carrie Griffin UCC Brendan O Connell TCD Niamh Pattwell UCD Frances McCormack NUIG Kathleen Cawsey Wilfrid Laurier U Kenneth Rooney UCC

The Journal of Medieval and Early Modern Studies, 2002

Reformations Rebecca L. Schoff, 2007 This volume discusses the key shift from manuscript to print culture in the history of books taking *The Canterbury Tales* *The Book of Margery Kempe* and *Piers Plowman* as models of the way in which a medieval text's unique tradition influenced its transition from manuscript to print This study follows the texts from their circulation in manuscript to their presentation in print in order to track how each of them survived the metamorphosis of the relationship between writers and readers as the new technology was introduced Taken together the three case studies demonstrate to scholars of any medieval literature the variety of possible impacts made when texts composed in manuscript culture were prepared for printing

John Stow (1525-1605) and the Making of the English Past Ian Anders Gadd, Alexandra Gillespie, 2004 The scholar and antiquarian John Stow 1525-1605 is a figure of crucial importance to our understanding of medieval and early modern English history literature and culture His *Survey of London*

an account of metropolitan topography and tradition is still an invaluable resource for scholars of the early modern city His Chronicles of English history paved the way for the famous historical projects of Raphael Holinshed and William Camden and shaped the historical consciousness of early modern dramatists and poets such as Shakespeare and Samuel Daniel This volume collects together wide ranging new essays on Stow Its contributors consider the feuds and friendships at the heart of the Tudor historiographical project the construction of a political and religious culture and the topographical history for Elizabethan London the early modern invention of the medieval past and the manuscript and printed books written and collected by this industrious and important maker of English history BOOK JACKET **Chaucer's Boece** Boethius, Geoffrey Chaucer, 2008 **JEGP, Journal of English and Germanic Philology** Gustaf E.
