The China Option Nancy Milton, 1984-01-01 When Anne Campbell a newly arrived China correspondent discovers the Pentagon scenario for America's nuclear arming of China she risks her life to publish the scoop of the century *The China Option* Nancy Milton, 1982 The China Option Sophia Camille Erickson, 2018-08-28 In 2014 Sophia Erickson graduated from college with an apparently useless degree in European history from an obscure foreign college Faced with crippling student loan debts and after an anxious couple of months waiting tables in her small Massachusetts town she decided to do something different and bought a one way ticket to China Over the following two years she had many amazing experiences paid off nearly half her student loans and visited China from Heilongjiang to Hainan as well as Myanmar Vietnam Malaysia and Singapore She wrote *The China Option A Guide for Millennials How to work play and find success in China* to give Millennials a path to explore their future the way she explored her own in China The book covers a wide range of topics from the concept of face to coffee culture to racism to love to LGBT issues as well as all of the practicalities readers need to know to get in and get a job *The China Option* is a manifesto for recent college grads to take control of paying off debt while living a stimulating adventurous life and to pave a way for a successful future **The China Option** Nancy Dall Milton (écrivain), 1982 *The China Year Book* Henry George Wandesforde Woodhead, Henry Thurburn Montague Bell, 1914

**The China Choice** Hugh White, 2013-07-04 China is rising But how should the West and the United States in particular respond This could be the key geopolitical question of the twenty first century according to strategic expert Hugh White with huge implications for the future security and prosperity of the West as a whole *The China Choice* confronts this fundamental question considering the options for the Asian century ahead As China's economy grows to become the world's largest the US has three choices it can compete share power or concede leadership in Asia The choice is momentous as significant for the future as any the US has ever faced China is already more formidable than any country the US has faced before and if America does not want to find itself facing China as an enemy it must accept it as an equal partner Weighing the huge difficulties of accepting China as an equal with the immense cost and risks of making it an enemy in the end the choice is simple even if it is not easy The US simply must share power with China in Asia The alternative is too terrible to contemplate

*The China Mission Year Book*, 1915 **The China Options** Amitai Etzioni, 2017 A variety of strategies have been suggested for how the U S should respond to China as a rising power The publication analyses the underlying assumptions of these strategies The strategies are grouped into three categories 1 Strategies that call for China to be integrated into the liberal international order The study finds that there are significant divergences in the requirements imposed contingent on different views of what such integration entails and hence differences in their chances of success 2 The study compares strategies that call for the application of primarily military power to either brake or reverse the rise of China or to limit it or to allow for some increasing influence and U S retrenchment 3 The study compares the scope of shared and complementary

versus conflicting core interests of the two powers and those of their allies and weighs the role that tension reduction measures can play in dealing with these conflicting interests as compared to negotiated settlements based on salience differentials The publication closes by asking what differences emerge if the end state one seeks is a peaceful stable order or also a liberal democratic one
