The Chosen Race:

The Chosen Race Keren Rosa Hammerschlag,2026 From the Realist canvases of the Pre Raphaelites to the Aesthetic experiments of James McNeill Whistler **The Chosen Race** confronts the complex negotiations of whiteness that played out across British art of the nineteenth century Examining the representation of racial supremacy difference and indeterminacy in paintings produced in England during the reign of Queen Victoria Keren Rosa Hammerschlag explores the many ways Victorian painters engaged with racial ideas at the height of British imperial dominance While at times these painters reinforced racial hierarchies at other times they problematized them revealing race to be a fundamentally unstable organizing principle by which to build an empire and classify its subjects *The Chosen Race, Their History and Their Coming King* F.
