**Eric Leif Davin**

## **The Conscience Of A Young Conservative:**

**The Conscience of a Young Conservative** Donald Lambro, 1976-06      **The Conscience of a Young Conservative** Matt Palumbo, 2013-06-30

Is Piers Morgan correct that the UK is so much less violent than the US due to gun control Does socialized medicine make us live longer for cheaper Is the middle class shrinking Does Warren Buffet really pay a lower tax rate than his secretary Is income inequality harmful to societal well being Any conservative who studies politics has likely encountered any of the following claims

**The Conscience of a Young Conservative** is a research heavy book divided into five chapters and drawing on over 900 footnotes dealing with gun politics health care reform economic policy economic myths and intellectuals and capitalism The first chapter begins with a historical analysis of the Second Amendment by looking into the writings of the Founding Fathers and various Supreme Court decisions The other parts of the chapter analyze the follies of pro gun control arguments Chapter two begins with a critique of the supposed superiority of socialized medicine by analyzing statistics regarding lifespan infant mortality hospital wait times medical technology and cancer survival rates Near the middle of the chapter current problems with the American system are recognized and the end of the chapter focuses on health care reform by offering creative market based solutions Chapter three discusses the proper role of government in the economy by looking at issues relating to economic freedom education taxation income inequality regulation and spending The chapter ends with a plan to balance the federal budget Chapter four aims to dispel common economic myths that often go unchallenged Among the myths debunked are the alleged gap in male and female pay the supposed decline in wages since the 1970s various claims concerning unions the declining state of the middle class and stimulus spending Chapter five critiques the criticisms of capitalism as articulated by today's intellectuals Among those critiqued are Naomi Klein Elizabeth Warren Nick Hanauer Paul Krugman and Richard Wilkinson

**Creating Conservatism** Michael J. Lee, 2014-08-01

**Creating Conservatism** charts the vital role of canonical post World War II 1945 1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution **The Road to Serfdom** **Ideas Have Consequences** **Witness The Conservative Mind** **God and Man at Yale** **The Conscience of a Conservative** and other mid century texts became influential not only among conservative office holders office seekers and well heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars **Creating Conservatism** generates original insights about the struggle over what it means to think and speak conservatively in America

**Social Controversy and Public Address**

**in the 1960s and Early 1970s** Richard J. Jensen, 2017-10-01 The period between the 1960s and 1970s is easily one of the most controversial in American history Examining the liberal movements of the era as well as those that opposed them this volume offers analyses of the rhetoric of leaders including those of the civil rights movement the Chicano movement the gay rights movement second wave feminism and conservative resistance groups It also features an introduction that summarizes much of the significant research done by communication scholars on dissent in the 1960s and 1970s This time period is still a fertile area of study and this book provides insights into the era that are both provocative and illuminating making it an essential read for anyone looking to learn more about this time in America The Conservatives Patrick Allitt, 2009-05-26

This lively book traces the development of American conservatism from Alexander Hamilton John Adams and Daniel Webster through Abraham Lincoln Teddy Roosevelt and Herbert Hoover to William F Buckley Jr Ronald Reagan and William Kristol Conservatism has assumed a variety of forms historian Patrick Allitt argues because it has been chiefly reactive responding to perceived threats and challenges at different moments in the nation's history While few Americans described themselves as conservatives before the 1930s certain groups beginning with the Federalists in the 1790s can reasonably be thought of in that way The book discusses changing ideas about what ought to be conserved and why Conservatives sometimes favored but at other times opposed a strong central government sometimes criticized free market capitalism but at other times supported it Some denigrated democracy while others championed it Core elements however have connected thinkers in a specifically American conservative tradition in particular a skepticism about human equality and fears for the survival of civilization Allitt brings the story of that tradition to the end of the twentieth century examining how conservatives rose to dominance during the Cold War Throughout the book he offers original insights into the connections between the development of conservatism and the larger history of the nation **Rendezvous with Destiny** Craig Shirley, 2014-04-08

A first rate work of insider history A monumental accomplishment National Review The election that changed everything Craig Shirley's masterful account of the 1980 presidential campaign reveals how a race judged too close to call as late as Election Day became a Reagan landslide and altered the course of history To write *Rendezvous with Destiny* Shirley gained unprecedented access to 1980 campaign files and interviewed more than 150 insiders from Reagan's closest advisers and family members to Jimmy Carter himself His gripping account follows Reagan's unlikely path from his bitter defeat on the floor of the 1976 Republican convention through his underreported wilderness years through grueling primary fights in which he knocked out several Republican heavyweights through an often nasty general election campaign complicated by the presence of a third party candidate not to mention the looming shadow of Ted Kennedy to Reagan's astounding victory on Election Night in 1980 Shirley's years of intensive research have enabled him to relate countless untold stories including at long last the solution to one of the most enduring mysteries in politics just how Reagan's campaign got hold of Carter's debate briefing books

American Book Publishing Record Cumulative, 1950-1977: Title index R.R. Bowker Company. Department of

Bibliography,1978 **Germany: Jekyll and Hyde — An Eyewitness Analysis of Nazi Germany** Sebastian Haffner,2019-08-16 In this book written in early 1940 in England Sebastian Haffner a recent refugee from Nazi Germany analyzed Hitler the Nazis the German population and German migr s His purpose was to help the Allies wage psychological warfare against Nazi Germany to correct misconceptions about the Nazi regime and to outline the foundation of future peace in Europe Sebastian Haffner s book is unmatched as a contemporary analysis of the Third Reich It is quite remarkable that writing in 1940 he could produce such acute insights into Hitler s character and political hold over Germany Ian Kershaw excellent analysis of Germany s ills Deutschland Deutschland ber Alles according to Haffner is no mere musical fantasy but a national mania a fixation which is driving the nation not as some imagine to a great and noble destiny but to damnation This is a particularly penetrating study of a phenomenon whose like history has perhaps not ever been seen before The New York Times August 1941 Haffner s clear sighted analysis applied mainly to the dissection of his fellow Germans also annihilates any claim by his contemporaries not to have known about Nazi crimes The nature of Hitler s regime he says was well understood all that is open to debate is the eagerness with which it was supported Apocryphally Churchill told his cabinet to read this book so that they would understand the Nazi threat We should do likewise to understand how close we came to ignoring it The Observer clear sighted and perspicacious This brilliant journalist shows that it was possible to see and to hear and to draw one s conclusions if one only had the will S ddeutsche Zeitung An alarm call trying to awaken the British to the unique nature of Hitler and the Nazi regime Remarkably prescient J G Ballard A powerful and sustained text it explodes with rhetorical fireworks Haffner produces a convincing picture of the Nazis their numbers their power and the destructive nihilism that united them Giles MacDonogh BBC History [The Conscience of a Conservative](#) Barry Goldwater,2025-08-21T15:50:31Z U S Senator and future Republican presidential nominee Barry Goldwater s 1960 book The Conscience of a Conservative is a foundational work in the American conservative movement from the late 20th century and onward into the modern day It lays out the conservative position on a number of topics including taxation labor welfare education and the general roles of state and federal government and would prove highly influential to future conservative politicians in establishing their own platforms Goldwater offers his case for a strict Constitutionalist government in which the role of the federal government is restricted to those things called out explicitly in the constitution with all other matters being the responsibility of the states to manage independently In the final chapter of the book Goldwater describes his view of the stakes of the Cold War and the importance of containing the spread of Communism broadly and the Soviet Union in particular This book is part of the Standard Ebooks project which produces free public domain ebooks [Killing for Life](#) Carol Mason,2018-08-06 How can those who seek to protect the right to life defend assassination in the name of saving lives Carol Mason investigates this seeming paradox by examining pro life literature both archival material and writings from the front lines of the conflict Her analysis reveals the apocalyptic thread that is the ideological link between established anti

abortion organizations and the more shadowy pro life terrorists who subject clinic workers to anthrax scares bombs and bullets The portrayal of abortion as America s Armageddon began in the 1960s In the 1970s Mason says Christian politics and the post Vietnam paramilitary culture popularized the idea that legal abortion is a harbinger of apocalypse By the 1990s Mason asserts even the movement s mainstream had taken up the call narrating abortion as an apocalyptic battle between so called Christian and anti Christian forces Pro life violence of the 1990s signaled a move away from protest and toward retribution she writes Pro life retribution is seen as a way to restore the order of God In this light the phenomenon of killing for life is revealed not as an oxymoron but as a logical consistency and a political manifestation of religious retribution Mason s scrutiny of primary sources direct mail internal memoranda personal letters underground manuals and pro life films magazines and novels draws attention to elements of pro life millennialism *Killing for Life* is a powerful indictment of pro life ideology as a coherent mass produced narrative that does not merely condone violence but anticipates it as part of God s plan

**Treasury of Thought** Maturin Murray Ballou,1894 *The Thirty Years War* Thomas W. Pauken,1995 Here for the first time is a memoir by a conservative activist who played a significant role in the Reagan administration An engrossing account it s also an important one for readers interested in the future of American politics because Pauken and his generation s conservative cohort promise We ll be back following the accidental presidency of Bill Clinton

*International Index to Periodicals* ,1929 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts

**Book Review Index** ,1985 Every 3rd issue is a quarterly cumulation

**Fight the Power** Eric Leif Davin,2008-11-12 Eric Leif DaVietnamesen was raised as a Southern Baptist and Mormon convert although he was always a non believer However like everyone else in his blue collar surroundings he believed in America the military anti Communism and although too young to vote Senator Barry Goldwater when he ran for president in 1964 Then in the Sixties he went to college and became swept up in the movements of the times He came to realize that everything he d believed about his war the Vietnameseetnam War was wrong He came to believe that we were more than just on the wrong side We were the wrong side Eventually he was drafted However he refused induction into the military preferring to face five years in prison the maximum sentence rather than fight in an immoral war This memoir describes his journey through the Sixties from a working class gung ho Goldwater Republican supporter of the Vietnameseetnam War to a radicalized anti war actiVietnamesest who was eventually drafted to fight in that war but refused to go
